# FAQ's

Questions	Answers
Does this change my current pharmacy and my other medications?	No, this is only for new medication(s) ordered upon discharge.
How do I get refills?	The hospital does not provide refills. Contact your primary care physician for any refills and they will be sent to your normal pharmacy
What information does CAPRX need to fill my prescriptions?	Name, Date of Birth, Pharmacy Insurance information, Contact number, Delivery address (if being delivered home) and credit card for payment
Is there any extra cost if I utilize this program?	No, the delivery fee is covered. The only thing you will be responsible is for any copay(s) you may have or the cost of the medication if you do not have pharmacy insurance.
