Legal Experience

Bill Pargaman has been a partner in the Austin law firm of Saunders, Norval, Pargaman & Atkins since July of 2012. He has been certified as a specialist in Estate Planning and Probate Law by the Texas Board of Legal Specialization (since 1986) and has been a Fellow in the American College of Trust and Estate Counsel (since 1994). He is very active in the Real Estate, Probate and Trust Law Section of the State Bar of Texas, having served as REPTL's Chair for the 2015-2016 bar year, as chair of its Estate and Trust Legislative Affairs Committee for the 2009, 2011, and 2013 legislative sessions, and as a Council member and chair of REPTL's Trusts Committee from 2004 to 2008.

Bill's practice involves the preparation of wills, trusts and other estate planning documents, charitable planning, and estate administration and alternatives to administration. He advises clients on the organization and maintenance of business entities such as corporations, partnerships, and limited liability entities. He represents nonprofit entities with respect to issues involving charitable trusts and endowments. Additionally, he represents clients in contested litigation involving estates, trusts and beneficiaries, and tax issues.

Is There Meat in Those Beans?

The 2019 Texas Estate and Trust Legislative Update

(Including Decedents' Estates, Guardianships, Trusts,
Powers of Attorney, and Other Related Matters)

© 2019, William D. Pargaman, All Rights Reserved.

1. The Preliminaries.

1.1 Introduction and Scope. The 86th Regular Session of the Texas Legislature spans the 140 days beginning January 8, 2019, and ending May 27, 2019. This paper presents a summary of the bills that relate to probate (*i.e.*, decedents' estates), guardianships, trusts, powers of attorney, and several other areas of interest to estate and probate practitioners. Issues of interest to elder law practitioners are touched upon, but are not a focus of this paper. (And, to be honest, sometimes I go off on a tangent and discuss a bill of interest to me that has nothing to do with any of the areas mentioned above.)

1.2 CMA Disclaimers. While reading this paper, please keep in mind the following:

- I've made every reasonable attempt to provide accurate descriptions of the contents of bills, their effects, and in some cases, their background.
- Despite rumors to the contrary, I am human. And have been known to make mistakes.
- In addition, some of the descriptions in this paper admittedly border on editorial opinion, in which case the opinion is my own, and not necessarily that of REPTL, Craig Hopper, or anyone else.
- I often work on this paper late at night, past my normal bedtime, perhaps, even, under the influence of strategic amounts of Johnnie Walker Black (donations of Red, Black, Green, Gold, Blue, Platinum, or even Swing happily accepted!). Craig Hopper has informed me that he's also happy to accept donations of Scotch.
- As companion bills make their way through the legislative process, I usually base descriptions on the most recently approved version in either chamber. In the case of REPTL bills, I sometimes have access to drafts of substitutes before they are officially posted, in which case the descriptions may be based on what we think the bill will look like, rather than what the currently-online version looks like.
- As a consequence, while the descriptions contained in this paper are hopefully accurate at the time they are written, they may no longer accurately reflect the

contents of a bill at a later stage in the legislative process.

Therefore, you'll find directions in Section 1.6 on page 2 for obtaining copies of the actual bills themselves so you may review and analyze them yourself before relying on any information in this paper. You'll also find directions in Section for checking particular statutes for any amendments I may have missed.

1.3 If You Want to Skip to the Good Stuff ... If you don't want to read the rest of these preliminary matters and want to skip to the legislation itself, you'll find it beginning with **Part 6 on page 7**.

1.4A Note About Linking to the Electronic Version. Feel free to link to the electronic version of this paper if you'd like. If you do, use the URL found on the cover page to link to the most recent version of the paper:

www.snpalaw.com/resources/2019LegislativeUpdate

Once you click on that link, you'll open a PDF version of this paper. However, **don't** copy the URL that you'll find in your browser's address bar when you open the PDF! That's likely to be a 100+ character web address that will take you to that particular version of the paper only, and only so long as that version remains posted. Trust me – the link I've given you will take you to the right version each time.

And note that you can bring up my previous legislative updates going back to 2009 by substituting the appropriate odd-numbered year for "2019" in the URL.

1.5 Where You'll Be Able to Find the Statutory Language After the Session's Over. In previous legislative updates, after the session was over and we knew what had passed, I added attachments to the update that included the actual language of bills marked to show what had been added or deleted. But this was quite lengthy. It took over 100 pages in the 2017 update, more than doubling the size of the paper. So, in an effort to be green (for anyone getting a hard copy), we're going to change things up. I've prepared a separate supplement that contains all of that statutory language – or at least

the language I deem worthy to include. You may download it by pointing your browser to:

www.snplaw.com/resources/2019LegislativeSupplement

Down the road, I'll update it in case the Governor vetoes any included bills, and to add session law chapter numbers to the acts.

1.6 Acknowledgments. A lot of the effort in every legislative session comes from the Real Estate, Probate & Trust Law Section of the State Bar of Texas ("REPTL"). REPTL, with over 9,000 members, has been active in proposing legislation in this area for more than three decades. During the year and a half preceding a session, the REPTL Council works hard to come up with a package that addresses the needs of its members and the public, and then works to get the package enacted into law. In addition to myself, others who have been deeply involved in this legislative process include:

- Craig Hopper of Austin, Chair, Estate and Trust Legislative Affairs Committee; and principal presenter of this paper
- Eric Reis of Dallas, Chair-Elect/Secretary of REPTL (and Chair beginning in July of 2019)
- Tina Green of Texarkana, Immediate Past Chair of REPTL
- Melissa Willms of Houston, Chair, Decedents' Estates Committee
- Catherine Goodman of Fort Worth, Chair, Guardianship Committee
- Shyla Buckner of Amarillo, Chair, Trusts Committee
- Lora Davis of Dallas, Chair, Powers of Attorney and Advance Directives (PAADs) Committee
- Clint Hackney of Austin, Lobbyist
- Barbara Klitch of Austin, who provides invaluable service tracking legislation for REPTL

REPTL is helped along the way by the State Bar, its Board of Directors, and its staff (in particular, KaLyn Laney, Assistant Deputy Director).

Other groups have an interest in legislation in this area, and REPTL tries to work with them to mutual advantage. These include the statutory probate judges (Judge Guy Herman of Austin, Presiding Statutory Probate Judge) and the Wealth Management and Trust Division of the Texas Bankers Association.

Last, but of course not least, are the legislators and their staffs. You'll note the names of our authors and sponsors¹ in the parenthetical following the first mention of a bill in this paper. These are the legislators who have volunteered their time and effort to help

REPTL get its bills passed. Thanks go to all of these persons, their staffs, and the many others who have helped in the past and will continue to do so in the future.

Hopefully, the effort that goes into the legislative process will become apparent to the reader. In the best of circumstances, this effort results in passing good bills and blocking bad ones. But in the real world of legislating, the best of circumstances is never realized.

1.7 Obtaining Copies of Bills. If you want to obtain copies of any of the bills discussed here, go to www.legis.state.tx.us. Near the top of the page, in the middle column, you'll see **Search Legislation**. First, select the legislative session you wish to search (for example, the 2019 regular legislative session that spans from January through May is "86(R) - 2019). Select the Bill Number button, and then type your bill number in the box below. So, for example, if you wanted to find the Decedents' Estates bill prepared by the Real Estate, Probate, and Trust Law Section of the State Bar of Texas ("REPTL"), you'd type "HB _____" and press Go. (It's fairly forgiving – if you type in lower case, place periods after the H and the B, or include a space before the actual number, it's still likely to find your bill.)

Then click on the Text tab. You'll see multiple versions of bills. The "engrossed" version is the one that passes the chamber where a bill originated. When an engrossed version of a bill passes the other chamber without amendments, it is returned to the originating chamber where it is "enrolled." If the other chamber does make changes, then when it is returned, the originating chamber must concur in those amendments before the bill is enrolled. Either way, it's the "enrolled" version you'd be interested in.

1.8 Checking for Amendments to Particular Statutes. While I believe I've included all changes to the Estates and Trust Codes, there may be amendments to some of the other statutes mentioned in this paper that I didn't pick up due to the search criteria I use. If it's important to you to verify whether any other changes have been made to a particular statute, you can do so through the Legislative Reference Library's Index to Sections Affected:

<https://lrl.texas.gov/legis/isaf/lrlhome.cfm>

At that page, you can search by legislative session and statutory sections to see either proposed changes, or just those that made their way into law. To do the latter, select Enrolled in the Status field, and don't forget to check any results for potential vetoes.

¹ See Sec. 2.5 on page 3 if you want to learn the difference between an author and a sponsor.

2. The People and Organizations Most Involved in the Process.

A number of organizations and individuals get involved in the legislative process:

2.1 REPTL. REPTL acts through its Council. Many volunteer Section members who are not on the Council give much of their time, energy and intellect in formulating REPTL legislation. REPTL is not allowed to sponsor legislation or oppose legislation without the approval of the Board of Directors of the State Bar. There is no provision to support legislation offered by someone other than REPTL, and the ability of REPTL to react during the legislative session is hampered by the necessity for Bar approval. Therefore, REPTL must receive prior permission to carry the proposals discussed in this paper that are identified as REPTL proposals. REPTL has hired Clint Hackney, who has assisted with the passage of REPTL legislation for many sessions.

2.2 The Statutory Probate Judges. The vast majority of probate and guardianship cases are heard by the judges of the Statutory Probate Courts (18 of them in 10 counties). Judge Guy Herman of the Probate Court No. 1 of Travis County (Austin) is the Presiding Statutory Probate Judge and has been very active in promoting legislative solutions to problems in our area for many years.

2.3 The Bankers. There are two groups of bankers that REPTL deals with. One is the Wealth Management and Trust Division of the Texas Bankers Association ("TBA"), which tends to represent the larger corporate fiduciaries, while the other is the Independent Bankers Association of Texas ("IBAT"), which tends to represent the smaller corporate fiduciaries, although the distinctions are by no means hard and fast.

2.4 The Texas Legislative Council. Among other duties, the Texas Legislative Council² provides bill drafting and research services to the Texas Legislature and legislative agencies. All proposed legislation must be reviewed (and usually revised) by Leg. Council before a Representative or Senator may introduce it. In addition, as part of its continuing statutory revision program, Leg. Council was the primary drafter of the Texas Estates Code, a nonsubstantive revision of the Texas Probate Code.

2.5 The Authors and Sponsors. All legislation needs an author, the Representative or Senator who introduces the legislation. A sponsor is the person who introduces a bill from the other house in the house of which he or she is a member. Many bills have authors

in both houses originally, but either the House or Senate version will eventually be voted out if it is to become law; and so, for example, the Senate author of a bill may become the sponsor of a companion House bill when it reaches the Senate. In any event, the sponsor or author controls the bill and its fate in their respective house. Without the dedication of the various authors and sponsors, much of the legislative success of this session would not have been possible. The unsung heroes are the staffs of the legislators, who make sure that the bill does not get off track.

2.6 The Committees. All legislation goes through a committee in each chamber. In the House, most bills in our area go through the House Committee on Judiciary and Civil Jurisprudence, or "Judiciary." In the Senate, most bills in our area go through the Senate Committee on State Affairs, or "State Affairs."

3. The Process.

3.1 The Genesis of REPTL's Legislative Package. REPTL³ begins work on its legislative package shortly after the previous legislative session ends. In August or September of odd-numbered years – just weeks after a regular legislative session ends, the chairs of each of the main REPTL legislative committees put together lists of proposals for discussion by their committees. These items are usually gathered from a variety of sources. They may be ideas that REPTL Council or committee members come up with on their own, or they may be suggestions from practitioners around the state, accountants, law professors, legislators, judges – you name it. Most suggestions usually receive at least some review at the committee level. If you have ideas for the 2021 legislative package, these persons will be the chairs of the main REPTL legislative committees during REPTL's drafting phase:

- Greg Kimmel of Tyler, Decedents' Estates
- Catherine Goodman of Fort Worth, Guardianships
- Gene Wolf of El Paso, Trusts
- Don Totusek of Dallas, Powers of Attorney and Advance Directives (PAADs)

3.2 Preliminary Approval by the REPTL Council. The full "PTL" or probate, guardianship, and trust law side of the REPTL Council reviews each committee's suggestions and gives preliminary approval (or rejection) to those proposals at its Fall meeting (usually in September or October) in odd-numbered years. Draft language may or may not be available for

² We usually refer to the Texas Legislative Council as simply "Leg. (pronounced "ledge") Council."

³ Note that the "RE" or real estate side of REPTL usually does not have a legislative package, but is very active in monitoring legislation filed in its areas of interest.

review at this stage – this step really involves a review of concepts, not language.

3.3 Statutory Language is Drafted. Following the Fall Council meeting, the actual drafting process usually begins by the committees. Proposals may undergo several redrafts as they are reviewed by the full Council at subsequent meetings. By the Spring meeting of the Council in even-numbered years (usually in April), language is close to being final, so that final approval by the Council at its June annual meeting held in conjunction with the State Bar’s Annual Meeting is mostly *pro forma*. Note that items may be added to or removed from the legislative package at any time during this process as issues arise.

3.4 REPTL’s Package is Submitted to the Bar. In order to obtain permission to support legislation, the entire REPTL package is submitted to the other substantive law sections of the State Bar for review and comment by June. This procedure is designed to assure that legislation with the State Bar’s “seal of approval” will be relatively uncontroversial and will further the State Bar’s goal of promoting the interests of justice.

3.5 Legislative Policy Committee Review. Following a comment period (and sometimes revisions in response to comments received), REPTL representatives appear before the State Bar’s Legislative Policy Committee in August to explain and seek approval for REPTL’s legislative package. By letter dated August 20, 2018, the Legislative Policy Subcommittee notified REPTL that it would recommend approval of all of REPTL’s proposals to the State Bar’s Board of Directors.

3.6 State Bar Board of Directors Approval. Assuming REPTL’s package receives preliminary approval from the State Bar’s Legislative Policy Committee, it is submitted to the full Board of Directors of the State Bar for approval in September. At times, REPTL may not receive approval of portions of its package. In these cases, REPTL usually works to satisfy any concerns raised, and then seeks approval from the full Board of Directors through an appeal process. REPTL’s 2019 legislative package received approval from the full Board of Directors in the Fall of 2018.

3.7 REPTL is Ready to Go. After REPTL receives approval from the State Bar’s Board of Directors to carry its package, it then meets with appropriate Representatives and Senators to obtain sponsors, who submit the legislation to Leg. Council for review,

revision, and drafting in bill form. REPTL’s legislation is usually filed (in several different bills) in the early days of the sessions that begin in January of odd-numbered years.

3.8 During the Session. During the legislative session, the work of REPTL and members of its various committees is not merely limited to working for passage of their respective bills. An equally important part of their roles is monitoring bills introduced by others and working with their sponsors to improve those bills, or, where appropriate, to oppose them (in their individual capacities – not on behalf of REPTL without State Bar approval).

3.9 Where You Can Find Information About Filed Bills. You can find information about any of the bills mentioned in this paper (whether or not they passed), including text, lists of witnesses and analyses (if available), and actions on the bill, at the Texas Legislature Online website: www.legis.state.tx.us. The website allows you to perform your own searches for legislation based on your selected search criteria. You can even create a free account and save that search criteria (go to the “My TLO” tab). Additional information on following a bill using this site can be found at:

<http://www.legis.state.tx.us/resources/FollowABill.aspx>

3.10 Where You Can Find Information About Previous Versions of Statutes. I frequently see requests on Glenn Karisch’s [Texas Probate E-Mail List](#) for older versions of statutes, such as the intestacy laws applicable to a decedent dying many years ago. You can find old law on your own (for free) rather than asking the list, and I’ll use our intestacy statutes as an example.

- Former Texas Probate Code Sec. 38 had the rules for non-community property. If you’ve got a copy of it with the enactment information,⁴ you’ll see that it came from “Acts 1955, 54th Leg., p. 88, ch. 55, eff. Jan. 1, 1956.” That means it was part of the original Probate Code, and was never amended. The key information you’ll need is that it was from the **54th Legislature**, and it’s found in **chapter 55**.
- Next, go to the search page of the Legislative Reference Library:
<http://www.lrl.state.tx.us/legis/billsearch/lrlhome.cfm>
- Since you’ve got the session and chapter number, use the option to “Search by session law chapter.” Click the down arrow and scroll down to “54th R.S.

⁴ If you don’t have a copy of the Probate Code with enactment information, you can get one! Prof. Gerry Beyer’s website (<http://professorbeyer.com/>) contains a copy of the Probate Code as it existed immediately prior to its repeal effective

December 31, 2013, with post-1955 amendment information following each section. Click on Legal Updates | Texas Estates Code, and you’ll find the link to the final Probate Code at the upper left.

(1955).” Then type “55” as the Chapter number. Click “Search by chapter.”

- You’ll arrive at a page that has a hyperlink to chapter 55. Click on that and Voilà – you’ve got a PDF of the entire original Probate Code! Since Sec. 38 was never amended prior to its repeal on December 31, 2013 (and replacement by Estates Code Secs. 201.001 and 201.002), you’ve got the language of that section as it existed before 1993.
- Former Texas Probate Code Sec. 45 had the rules for community property. The PDF you just downloaded had the version in effect when the Probate Code went into effect in 1956. But if you’ve got the enactment information, you’ll see that it was amended by Acts 1991, 72nd Leg., ch. 895, § 4, eff. Sept. 1, 1991, and by Acts 1993, 73rd Leg., ch. 846, § 33, eff. Sept. 1, 1993.
- If you’re researching the law applicable to someone who died before September 1, 1991, look no further – the original version was still the law. But if your decedent happened to die on or after September 1, 1991, but before September 1, 1993, you need to see what the 1991 amendment did. So back to the search page mentioned above. Scroll to 72nd R.S. (1991) (you don’t want either of the “called sessions”), type in 895 for the chapter number, and click on the search button. Again, click on the hyperlink to chapter 895, and you’ll download all of that chapter. You need to scroll down to Section 4 of the act to find the 1991 amendment to Texas Probate Code Sec. 45.
- The same procedure should work for any bill or amendment.

3.11 Summary of the Legislative Process.

Watching the process is like being on a roller coaster; one minute a bill is sailing along, and the next it is in dire trouble. And even when a bill has “died,” its substance may be resurrected in another bill. The real work is done in committees, and the same legislation must ultimately pass both houses. Thus, even if an identical bill is passed by the Senate as a Senate bill and by the House as a House bill, it cannot be sent to the Governor until either the House has passed the Senate bill or vice-versa. At any point in the process, members can and often do put on amendments which require additional steps and

additional shuttling. It is always a race against time, and it is much easier to kill legislation than to pass it. You can find an “official” description of how a bill becomes a law prepared by the Texas Legislative Council at:

<https://tlc.texas.gov/docs/legref/legislativeprocess.pdf>

3.12 **Other Legislative Information and Resources.** Leg. Council has also prepared a guide designed to help interested persons track the work of current legislatures and research the work of past legislatures. You can download a copy at:

<https://tlc.texas.gov/docs/legref/gtli.pdf>

3.13 **The Legislative Council Code Update Bill.** As statutes are moved around pursuant to the legislature’s continuing statutory revision program, Legislative Council prepares general code update bills for the purposes of (and I quote):

- (1) codifying without substantive change or providing for other appropriate disposition of various statutes that were omitted from enacted codes;
- (2) conforming codifications enacted by the 83rd Legislature to other Acts of that legislature that amended the laws codified or added new law to subject matter codified;
- (3) making necessary corrections to enacted codifications; and
- (4) renumbering or otherwise redesignating titles, chapters, and sections of codes that duplicate title, chapter, or section designations.

As an aside, if you’re interested in learning more about the creation of the Estates Code as part of this statutory revision, you can download this author’s paper, *The Story of the Estates Code*, at:

www.snpalaw.com/resources/EstatesCodeStory

By the end of the 2017 session, Leg. Council had updated most, but not all, of references to old Probate Code provisions found outside of the Estates Code.⁵ They found a couple of other items to fix this session. The 2019 Leg. Council code update bill is **HB 4170** (Leach | Kolkhorst). One change corrects a typographical error by deleting an unnecessary indefinite article (*i.e.*, “a”) in Estates Code Sec. 752.113(c).⁶ The other change updates references

⁵ Previous Leg. Council code update bills relating to the Estates Code are **S.B. 1303** (2011), **S.B. 1093** (2013), **S.B. 1296** (2015), and **SB 1488** (2017).

⁶ Don’t make fun of the seeming lack of importance of a single “a!” In the recent Florida divorce case of *Famiglio v. Famiglio*, the divorcing couple had a marital property agreement that paid the wife a lump sum alimony payment based on the number of full years they had been married “at the time a Petition for Dissolution of Marriage is filed.” The

wife initially filed in 2013 when the lump sum would’ve been \$2.7 million. However, she dismissed that petition without ever serving it on her husband. She refiled in 2016, when the lump sum had grown to \$4.2 million. Of course, the husband argued that the initial petition froze the payment at the lower figure because “a Petition” had been filed then, saving him \$1.5 million. Both spouses and the trial court seemed to agree that the agreement was clear and unambiguous, so no parol evidence was introduced. The trial court held that the only

to a subchapter of Gov't Code Ch. 155 found in Estates Code Sec. 1104.359(a) required by redesignation of that subchapter in another portion of the code update bill.

HB 4170 was filed with the Secretary of State without the Governor's signature on June 7th and is effective September 1st.

3.14 **The REPTL Substantive Code Update Bill.** But Leg. Council still couldn't update all references to the Probate Code. Its mandate under Chapter 323, Government Code, only allows it to make **nonsubstantive** changes, and updating certain provisions in an appropriate manner could potentially result in making **substantive** changes. These provisions were identified and forwarded to REPTL for potential inclusion in a **substantive** code update bill.

(a) **Example of a "Substantive Change."** An example provided by Leg. Council to this author is a reference to Texas Probate Code Sec. 95 contained in Civ. Prac. & Rem. Code Sec. 71.012:

Sec. 71.012. QUALIFICATION OF FOREIGN PERSONAL REPRESENTATIVE. If the executor or administrator of the estate of a nonresident individual is the plaintiff in an action under this subchapter, the foreign personal representative of the estate who has complied with the requirements of *Section 95, Texas Probate Code*, for the probate of a foreign will is not required to apply for ancillary letters testamentary under *Section 105, Texas Probate Code*, to bring and prosecute the action.

The provisions of Probate Code Sec. 95 found their way into seven sections of Ch. 501 of the Estates Code, and one section each of Chs. 503 through 505. Changing the Sec. 95 reference to Chapter 501 alone would ignore portions of Sec. 95 that were ultimately incorporated into Chapter 503, and would also include reference to a provision (Sec. 501.006) that was not originally derived from Sec. 95. Therefore, in order to update the reference to Sec. 95 in a manner that would not lead to confusion, a substantive, albeit minor, change was necessary. But Leg. Council takes the position that it isn't allowed to make substantive changes, even if they're teensy weensy.

(b) **REPTL to the Rescue.** That's where REPTL has come in. Its 2019 Substantive Code Update

filing that mattered was of the petition that resulted in the actual dissolution of the marriage, which meant the wife won. The husband appealed, claiming "a" petition meant "any" petition, whether or not the petition resulted in dissolution. The appellate court seemed a bit frustrated by the trial court's implied assumption that the phrase was unambiguous. "Much of the trial court's interpretation rested upon its assessment that the indefinite article "a" in [the] term, "at the time a Petition

bill, **HB 2780** (Wray | Rodríguez), clarifies these references by revising Civ. Prac. & Rem. Code Sec. 71.012 as follows:

Sec. 71.012. QUALIFICATION OF FOREIGN PERSONAL REPRESENTATIVE. If the executor or administrator of the estate of a nonresident individual is the plaintiff in an action under this subchapter, the foreign personal representative of the estate who has complied with the requirements of Chapter 503, Estates Code [~~Section 95, Texas Probate Code~~], for the probate of a foreign will is not required to apply for ancillary letters testamentary under Section 501.006, Estates Code, to bring and prosecute the action.

In addition to the Civil Practice and Remedies Code, the other codes amended by this bill include the Education Code, the Estates Code, the Government Code, the Health and Safety Code, the Occupations Code, and the Property Code.

HB 2780 was signed by the Governor on June 10th and is effective September 1st.

(c) **We're Done!(!?).** Once the Governor signs this year's Leg. Council nonsubstantive code update bill and REPTL's substantive code update bill, we should be done changing all references to provisions of the Probate Code found in Texas law that should refer to provisions of the Estates Code. (Unless we've missed something.) At least references found in Texas statutes. We're not tackling the Texas Administrative Code.

4. Key Dates.

Key dates for the enactment of bills in the 2019 legislative session include:⁷

- **Tuesday, November 6, 2018** – General election for federal, state, and county offices on the first Tuesday after the first Monday in November of even-numbered years. [*Election Code, Sec. 41.002, U.S. Statutes at Large, 28th Congress, 2nd Session, p. 721*]
- **Monday, November 12, 2018** – Prefiling of legislation for the 86th Legislature begins.
- **Tuesday, January 8, 2019** (1st day) – 86th Legislature convenes at noon on the second Tuesday in January of each odd-numbered year. [*Government Code, Sec. 301.001*]

for Dissolution of Marriage is filed," holds no real importance. We respectfully disagree. The use of this indefinite article is the heart of the problem here." The trial court essentially invented the addition of "when that Petition results in a dissolution of marriage." After much rumination, which appears cranky at times, the appellate court ruled that the filing of the first petition fixed the alimony at the lower figure.

⁷ As we pass each deadline, I'll mark it in red.

- **Friday, March 8, 2019** (60th day) – Deadline for filing most bills and joint resolutions. [*House Rule 8, Sec. 8; Senate Rule 7.07(b); Senate Rule 10.01 subjects joint resolutions to the rules governing proceedings on bills*]
- **Monday, May 6, 2019** (119th day) – Last day for House committees to report House bills and joint resolutions. [*a “soft” deadline that relates to House Rule 6, Sec. 16(a), requiring 36-hour layout of daily calendars prior to consideration, and House Rule 8, Sec. 13(b), the deadline for consideration*]
- **Thursday, May 9, 2019** (122nd day) – Last day for House to consider nonlocal House bills and joint resolutions on **second** reading. [*House Rule 8, Sec. 13(b)*]
- **Friday, May 10, 2019** (123rd day) – Last day for House to consider nonlocal House bills and joint resolutions on **third** reading. [*House Rule 8, Sec. 13(b)*]
- **Saturday, May 18, 2019** (131st day) – Last day for House committees to report Senate bills and joint resolutions. [*relates to House Rule 6, Sec. 16(a), requiring 36-hour layout of daily calendars prior to consideration, and House Rule 8, Sec. 13(c), the deadline for consideration*]
- **Tuesday, May 21, 2019** (134th day) – Last day for House to consider most Senate bills and joint resolutions on **second** reading. [*House Rule 8, Sec. 13(c)*]
- **Wednesday, May 22, 2019** (135th day) – Last day for House to consider most Senate bills or joint resolutions on **third** reading. [*House Rule 8, Sec. 13(c)*]
Last day for Senate to consider any bills or joint resolutions on third reading. [*Senate Rule 7.25; Senate Rule 10.01 subjects joint resolutions to the rules governing proceedings on bills*]
- **Friday, May 24, 2019** (137th day) – Last day for House to consider Senate amendments. [*House Rule 8, Sec. 13(d)*]
Last day for Senate committees to report all bills. [*relates to Senate Rule 7.24(b), but note that the 135th day (two days earlier) is the last day for third reading in the senate; practical deadline for senate committees is before the 135th day; Senate*

Rule 10.01 subjects joint resolutions to the rules governing proceedings on bills]

- **Sunday, May 26, 2019** (139th day) – Last day for House to adopt conference committee reports. [*House Rule 8, Sec. 13(e)*]
Last day for Senate to concur in House amendments or adopt conference committee reports. [*relates to Senate Rule 7.25, limiting a vote on the passage of any bill during the last 24 hours of the session to correct an error in the bill*]
- **Monday, May 27, 2019** (140th day) – Last day of 86th Regular Session; corrections only in House and Senate. [*Sec. 24(b), Art. III, Texas Constitution; House Rule 8, Sec. 13(f); Senate Rule 7.25*]
- **Sunday, June 16, 2019** (20th day following final adjournment) – Last day Governor can sign or veto bills passed during the previous legislative session. [*Section 14, Art. IV, Texas Constitution*].⁸
- **Monday, August 26, 2019** (91st day following final adjournment) – Date that bills without specific effective dates (that could not be effective immediately) become law. [*Sec. 39, Art. III, Texas Constitution*] (Note that most bills in recent years include a standard specific effective date of September 1st of the year of enactment.)

5. If You Have Suggestions ...

If you have comments or suggestions, you should feel free to contact the chairs of the relevant REPTL committee[s] identified in Section 1.4 on page 1. Their contact information can be found on their respective committee pages at www.reptl.org.

6. The REPTL Bills.

6.1 The Original REPTL Legislative Package. In addition to REPTL’s Substantive Code Update bill (see Sec. 3.13 on page 6), REPTL’s 2019 legislative package consisted of a number of bills covering four general areas: (i) decedents’ estates; (ii) guardianships; (iii) trusts; and (iv) powers of attorney and advance directives. In addition, REPTL’s legislative package includes a Texas version of the revised Uniform Fiduciary Access to Digital Assets Act. However, Sec. 35(a), Article III, of the Texas Constitution contains the “one-subject” rule:

⁸ A few words of further explanation about this deadline. This provision states the general rule that if the Governor doesn’t return a vetoed bill to the Legislature within 10 days (*excluding Sundays*) after it’s presented to him (*gender specific pronoun in original*), it becomes law as if [s]he’d signed it. Regular sessions of the Legislature always end on a Monday, which means that there are two Sundays included in the 10 calendar days preceding adjournment. Since we don’t

count those Sundays, this means that for regular sessions, the 10-day period is really a 12-day period. **However**, if the Governor can’t return it because the Legislature has adjourned by the end of this 12-day period, the Governor has until 20 days (*no Sunday exclusion*) after adjournment to veto it. Therefore, bills passed in the 2019 regular session must be sent to the Governor by May 15th in order to avoid the 20-day post adjournment deadline.

No bill, (except general appropriation bills, which may embrace the various subjects and accounts, for and on account of which moneys are appropriated) shall contain more than one subject.

Because of this rule, we (or sometimes Leg. Council) strip out provisions from one or more of the “general” bills that may violate the one-subject rule and place them in separate, smaller bills. In each of the substantive sections of this paper, we will identify any REPTL bills and begin with descriptions of them.

6.2 Consolidation Into REPTL Bills. As hearings begin, legislators often ask interested parties to try to consolidate as many of the various bills on similar subjects as possible, in order to reduce the number of bills that would need to move through the legislature. Pursuant to this request, REPTL representatives and the statutory probate judges usually agree to consolidate all or a portion of a number of other bills into one or more of REPTL’s bills. Therefore, keep in mind that not everything that ends up in a REPTL bill by the time it passes was originally a REPTL proposal. Where non-REPTL provisions have been added to REPTL bills, we’ve attempted to identify the original bill[s] that served as the source of the amendments.

7. Decedents’ Estates.⁹

7.1 REPTL Decedents’ Estates Bill. REPTL’s Decedents’ Estates bill is **HB 2782** (Wray | Rodríguez).

(a) Definition of “Probate Proceeding” (Sec. 31.001). A “probate proceeding” would include a will modification or reformation proceeding.

(b) Representative’s Access to Nonprobate Asset Information (Secs. 111.101-111.102). This change requires a third party who held nonprobate property to provide the personal representative information about the decedent’s interest prior to death, even if the estate has no interest in the asset. This assists the representative in preparing an estate tax return, or in determining whether nonprobate assets should be pursued to pay debts and expenses.

(c) Liability of Nonprobate Assets (Sec. 113.252). This change corrects a previous amendment to make clear that a personal representative has no duty to pursue nonprobate assets to pay claims, expenses, and taxes unless a written demand is made by a surviving spouse, a creditor, or someone acting on behalf of a minor child of the decedent.

(d) Memorandum of Conveyance Voids TODD (Sec. 114.102). This change clarifies that a memorandum of conveyance recorded before the

transferor’s death voids a prior TODD covering the property (as an alternative to recording the conveyance itself).

(e) Repeal of Statutory TODD Forms (Secs. 114.151-114.152). The optional statutory forms for a TODD and a revocation of a TODD found in Subchapter D have been criticized as confusing, and there is an ongoing desire to move away from statutory forms. Rather than trying to fix them, they’re repealed, since alternative forms (that can be modified as needed without legislative action) satisfying the statute are readily available. (But see the discussion of **SB 874** in Sec. 11.2 on page 19 that both repeals the statutory forms – so they’re really, really, repealed, but directs the Supreme Court to promulgate TODD-related forms.)

Drafting Tip

TexasLawHelp.org has a handy, dandy toolkit for TODDs, currently available to download at:

texaslawhelp.org/resources/transfer-death-deed-forms

(f) Community Property Intestacy Clarification (Sec. 201.003). Sec. 45 of the Probate Code originally provided that when a person died without a will, survived by a spouse and descendants, the survivor is entitled to retain half of the community estate, and the other half passes to the decedent’s descendants. There’s no confusion because the section is dealing with the passage of the entire community estate. In 1993, Sec. 45(a) was added to provide that all of the community estate passed to the survivor if all of the decedent’s descendants were also descendants of the survivor. If not, the old rule now contained in Sec. 45(b), continued to apply. Again, the section was still dealing with the entire community estate.

However, when Sec. 45 was moved to Estates Code Sec. 201.003, Leg. Council drafted three subsections. Subsection (a) stated that the section governed the disposition of the community estate *of a deceased spouse* who dies intestate. This doesn’t seem to deal with the community estate of the surviving spouse. Subsection (b) contained the 1993 amendment that the community estate *of a deceased spouse* passes to the surviving spouse if all of the decedent’s descendants are also descendants of the surviving spouse. Ditto as to the community estate of the surviving spouse. But now subsection (c) provided that if the deceased spouse had a descendant who was not a descendant of the surviving spouse, “one-half of the community estate is retained by the surviving spouse and the other one-half passes to the deceased spouse’s children or descendants.” Even

⁹ Section references are to the Texas Estates Code unless otherwise noted.

though subsection (a) said the section was only dealing with the decedent's community estate, this subsection is dealing with the entire community estate, just like former Sec. 45. Unfortunately, REPTL has received anecdotal evidence that some lawyers (and even judges) are interpreting subsection (c) to apply to just the deceased spouse's half of the community estate, so that the surviving spouse keeps his or her half, "retains" half of the deceased spouse's half, and the other half of the deceased spouse's half, or one-fourth of the entire community estate, passes to the descendants. *This interpretation is wrong*, and REPTL's solution is to change subsection (c) so that it only discusses the passage of the deceased spouse's half of the community estate to the descendants, and makes no mention of the surviving spouse's interest.

(g) Number of Disinterested Witnesses in an Heirship (Sec. 202.151). This change requires two disinterested and credible witnesses in an heirship proceeding unless the court is satisfied that only one can be found. Keep in mind that this section does not require that any of the witnesses personally knew the decedent. A genealogist who never met the decedent could be a disinterested witness who proves up the heirship solely by documentation found by the witness.

(h) Ability to Delegate Appointment of Administrator (Secs. 254.006, 256.051, 301.051, 301.052, and 304.001). Ever wish you could give someone the ability to name successor executors the same way you can give someone the ability to name successor trustees? Then this change is for you. New Sec. 254.006 allows a testator to grant to a named executor or other person designated by name, office, or function the authority to name one or more persons to serve as administrator.¹⁰ By default, the designee(s) would act only if all named successors were unable or unwilling to act, but the will could provide otherwise (*i.e.*, the person with the designation power could be given the ability to override the default order of succession). Unless the will or designation provides otherwise, the designee would have the same rights, powers, and duties of any named executor, including the rights to serve as independent administrator and exercise any power of sale granted in the will without the need for consent of the distributees. Of course, the designee would still need to offer the normal proof to the court that the designee is qualified to act, not disqualified, etc.

Drafting Tip

You may be able to adapt language you already have for the selection of trustees if your testator wishes to

delegate this authority in the will. This would include the possibility of expanding the authority of a trust committee, if that's your preference.

However, keep in mind that while trustee appointment authority often included the authority to remove an acting trustee, Trust Code Sec. 113.082 specifically authorizes trustees to be removed in accordance with the terms of a trust instrument. The changes described above only allow someone to designate a person to serve as administrator, who must still be appointed by the probate court. There is no change to the grounds for removal of an executor or administrator (Secs. 361.051 & 361.052 for dependent administrations; Secs. 404.003 & 404.0035 for independent administrations), so I do not think a testator can authorize anyone to remove an acting executor or administrator without going to court and proving one of the specified grounds.

(i) Failed Devise Provision Inapplicable to Charitable Gifts (Sec. 255.152). A non-REPTL addition to the bill requested by the Attorney General's office would make the provisions outlining what happens to a failed devise inapplicable to a charitable gift, unless the will provides otherwise. This reinforces the argument that the *cypres* doctrine can be used to find an alternative charitable beneficiary.

(j) Will Reformation in Constitutional County Court (Sec. 255.456). In a county **without a statutory probate court or county court-at-law**, the judge of the county court may, or on the motions of any party, the judge shall, request assignment of a statutory probate judge or transfer the proceeding to the district court. If a party requests assignment of an SPJ, the court must grant that motion and may not transfer the case to the district court. In a county **without a statutory probate court but with a county court-at-law**, the judge of the county court may, or on the motions of any party, the judge shall, transfer the proceeding to the county court-at-law.

(k) Elimination of Reference to Unwritten Will (Sec. 256.051). An unnecessary reference to unwritten wills is deleted since we don't have unwritten wills anymore (and haven't since 2007).

(l) Custody of Will (Secs. 256.053 & 256.202). Once an original will is filed for probate, it must remain in the clerk's custody unless removed for inspection pursuant to a court order (in which case it must be redelivered to the clerk following the inspection) or the case is transferred under Ch. 33 (*e.g.*, venue reasons or convenience of the estate).

¹⁰ The designee wouldn't be an executor since the designee wasn't directly named in the will.

(m) Conversion of Muniment to Administration (Secs. 257.151 & 257.152). Ever find a need for appointment of an executor after the will has already been admitted as a muniment of title? This new section clarifies that admission of a will as a muniment does not preclude the subsequent appointment of an executor or administrator, so long as the application is filed within the original time frame for opening administrations, or the court otherwise finds administration necessary (see Estates Code Sec. 301.002(b)). The deadline for granting letters, for giving notice to the beneficiaries, and for filing the affidavit or certificate of that notice will then run from the date of qualification rather than the date the will was originally admitted to probate.

(n) Clarification of Proof Required for Letters (Sec. 301.151). Two different 2015 bills amended Sec. 301.151(2). This change repeals the less desirable of the two of them.

(o) Extension of Time to File Affidavits in Lieu (Sec. 309.056). Glenn Karisch's [Texas Probate e-mail list](#) has been burning up with attorneys complaining about judges who won't let them file an affidavit in lieu of inventory once the initial deadline for filing an inventory has been extended. I don't know why some judges exhibit such an effort to thwart clear legislative intent when a reasonable interpretation of the legislative language would carry out that clear intent. I had started drafting a "special supplement" explaining what I believe to be the judges' position, and why I believe it's wrong. But I'm not a judge, and my opinion isn't particularly valuable to you. What you want is a clear solution. Well, an addition to the REPTL bill made by House Judiciary adds a new subsection (e) to Sec. 309.056 that reads:

(e) Any extension granted by a court of the period in which to file an inventory, appraisal, and list of claims prescribed by Section 309.051 is considered an extension of the filing period for an affidavit under this section.

The transitional provisions of the bill describe this as a clarification of, not a change to, existing law, and have this clarification apply to pending estates, not just those commenced after the effective date of the act. I think that about covers it (but only time will tell).

Drafting Tip

Nevertheless, I would still recommend two items to include in your pleadings:

- First, orders in an independent administration often end with: "No other action shall be had in this Court other than the return of an Inventory, Appraisal and List of Claims." If you haven't already, I'd

suggest you revise this to read: "No other action shall be had in this Court other than the return of an Inventory, Appraisal and List of Claims, as required by law." This covers the fact that the inventory may not be required to be "returned," *i.e.*, filed, if the estate is eligible to file an affidavit in lieu. (And yes, I'm aware that some courts also require a reference to the filing of an affidavit or certificate relating to the Chapter 308 notice to beneficiaries.)

- Second, in your applications for an extension of time to file an inventory (and the proposed order), ask for an extension of time "for preparing and filing the Inventory, Appraisal, and List of Claims or the Affidavit in Lieu of the Inventory."

(p) Executor's Access to Digital Assets (Secs. 351.106 & 402.003). This change clarifies the ability of an executor or administrator (including an independent one) to obtain a court order to access digital assets of a decedent.

(q) Court Approval of Contingent Fee Agreements (Sec. 351.152). This change clarifies that court approval of a contingent fee agreement in a dependent administration is required only if the agreement calls for a fee in excess of 1/3rd of the property sought to be recovered.

(r) Fees Awarded to Successful Contestant (Sec. 352.052). This change allows (but does not require) a successful will contestant who does not offer an alternative will for probate to be awarded costs, including attorney's fees.

(s) Separate \$15,000 Class 1 Claim Limits (Secs. 355.102 & 355.103). This change creates separate \$15,000 limits for Class 1 funeral expenses and expenses of last illness, rather than a single combined \$15,000 limit for both types of expenses, and clarifies that claims for reimbursement of those expenses benefit from the same classification.

(t) Claim Holder's "Reasonable Time" Duty (Sec. 355.1551). Sec. 355.1551, added in 2015 (but not by REPTL!), attempted to require a secured creditor electing preferred debt and lien status to take possession of or sell the security within a reasonable time. This change clarifies the procedures to be followed in that situation.

(u) Procedures to Sell Real Estate. These changes clarify the procedures to be followed in dependent administrations where there is no will granting a power of sale.

(i) Auctions (Secs. 356.105, 356.401-356.405). References to public "sales" are changed to

public “auctions.” An auction is completed upon the bid of the highest bidder. Instead of the auction taking place in the county where the probate proceeding is pending, it will take place in any county where the real estate is located, unless the court supervising the probate orders the auction to be held in its county (this flips the existing priority). The auction must take place either at the courthouse or another place designated by the commissioners court. If the first Tuesday of the month is either January 1st or July 4th, then the auction will take place on the first Wednesday of the month. (The changes relating to the time and location of the auction make the provisions identical to sales under contractual liens. See Prop. Code Sec. 51.002.)

(ii) Private Sales (Secs. 356.451 & 356.502). For private sales, “sales” terminology is revised to refer to the contract entered into by the representative.

(iii) Report and Approval (Secs. 356.551-356.558). Rather than a “sale” “being reported to the court, a “successful bid or private contract” is reported regarding the “proposed disposition” of the property, rather than referring to the “sale” as if it had already occurred. If the court is satisfied with the terms of the proposed disposition, it “approves,” rather than “confirms,” the sale.

(v) Waiver of Bond Where Will Doesn't Waive Bond (Sec. 401.005). This change allows the distributees to waive bond for an independent executor or administrator where the will doesn't waive it.

(w) Claims Procedures for Medicaid Recovery in Independent Administrations (Sec. 403.05851). Sec. 403.058 states that most of the claims procedures in dependent administrations don't apply to independent administrations. However, this change would have made the dependent administration claims procedures apply to Medicaid Estate Recovery (MERP) claims in an independent administration where without the change, no statute of limitations applies without opening a full dependent administration. However, a fiscal note was added to the bill (meaning the Legislative Budget Board thought this change would cost the state money), and this provision was deleted before the bill left the House. The fiscal note is probably incorrect, but a revised solution is being discussed for the 2021 session.

(x) Public Probate Administrators (Secs. 455.008, 455.009, & 455.012). Ch. 455, dealing with “public probate administrators,” was added in 2013. This change relates to the authority of and procedures for a PPA.

(y) Recusal of Presiding Statutory Probate Judge (Gov't Code Secs. 25.002201 and 25.00255). This change clarifies procedures related to a motion to recuse a judge who is the presiding judge of the statutory probate courts.

HB 2782 was signed by the Governor on June 14th and is effective September 1st.

7.2 Miscellaneous Decedents' Estates Changes in REPTL's Guardianship Bill. SB 1975 (Zaffirini | Thompson, S.) would have made several changes related to decedents' estates. Its language was added to **SB 667** (Zaffirini | Thompson, S.), the REPTL Guardianship bill, on the House floor.

SB 667 was vetoed by the Governor on June 15th, so **none of the changes described below in this Sec.7.2 will go into effect.** See the discussion of his veto statement following the introductory paragraph of Sec.8.1.¹¹

Here are the provisions that were incorporated from **SB 1975** into **SB 667**:

(a) Personal Service in Heirships (Sec. 202.054). A court may already require citation on distributees by personal service in an heirship proceeding. This change allows any disinterested person to serve the citation on a distributee who is absent or a nonresident.¹²

(b) References Changed from Independent Executor to Administrator (Secs. 351.351, 404.0036, & 404.005). Several references to “independent executor” are changed to “independent administrator.” Note that the definition of independent executor includes an independent administrator, but the converse is not true. See Estates Code Sec. 22.017.

(c) Notice of Appointment of Temporary Administrator (Sec. 452.006). A temporary administrator is already required to notify the decedent's known heirs of the appointment by certified mail. This change requires the administrator to file proof of service in the same manner required for service by mail under Sec. 51.103.

¹¹ In case you're wondering, in general, I retain descriptions of bills that passed but were vetoed in the main body of the paper, but move descriptions of the bills that failed to pass to [the attachment describing those bills](#). But there are always exceptions to the general rule, such as Secs. 10.2 and 10.3 on page 17.

¹² Keith Branyon, author of *Texas Probate Forms and Procedures*, has pointed out to us that this “change” is already included in Est. Code Sec. 51.051(b)(2), and previously was included in former Probate Code Sec. 33(f)(1) going back to January 1, 1972.

(d) Recording of Non-English Foreign Wills (Sec. 503.002). When an authenticated copy of a foreign will and its probate is recorded in the deed records, if any portion is not in English, it must be accompanied by an English translation, the accuracy of which is sworn to.

(e) Online Notice by Publication (Secs. 51.054, 51.103, 1051.054, & 1051.153). See Sec. 14.2 on page 19.

As noted, **SB 667** was vetoed by the Governor on June 15th.

7.3 Recovery of Unclaimed Funds from Comptroller (Secs. 551.051-551.055; Prop. Code Sec. 74.501). Apparently, the claims process under the Estates Code for recovery of unclaimed funds held by the Comptroller is different from the process for all other unclaimed property (*see* Ch. 74, Prop. Code). It requires the claimant to sue the Comptroller, and the suit must be brought in a district court in Travis County within a four-year deadline. **SB 1420** (Zaffirini | Murphy) amends the Estates Code provisions to adopt the Property Code claims process. Also, the current Property Code claims process provides that if the reported owner dies intestate, either the owner's legal heirs or the court-appointed administrator of the owner's estate may file a claim with the Comptroller. **HB 3598** (Martinez Fischer | Zaffirini) amends that provision to allow claims by the administrator only if appointed before the 4th anniversary of the owner's death.

SB 1420 was signed by the Governor on May 28th and is effective September 1st. **HB 3598** was signed by the Governor on June 10th and is effective immediately.

7.4 Exemption From Reporting Requirements (Gov't Code Secs. 36.003 & 37.002). See Sec. 14.4 on page 20.

7.5 Vacating Lease After Tenant's Death (Prop. Code Sec. 92.0162). **HB 69** (Minjarez | Zaffirini) allows the representative of the estate of a deceased tenant (who was the sole occupant of the dwelling) to terminate a residential lease early (and avoid liability for future rent) by (1) giving the landlord timely notice of the death and identification of the tenant's PR, (2) removing the tenant's property before the next rent payment is due, and (3) if required by the landlord, providing an inventory of the removed property. The lease is terminated on the later of (1) the 30th day following the notice to the landlord or (2) the date on which the above conditions are met. The estate is still liable for delinquent rent up to the effective date of termination and damages to the premises. Note that this

act would only apply to leases entered into on or after its effective date.

HB 69 was signed by the Governor on June 15th and is effective January 1, 2020.

7.6 Property Taxation of "Heir Property." **SB 1943** (Watson | Rodriguez) defines "heir property" as real property owned by one or more persons, at least one of whom claims the property as the person's residence homestead, and acquired by the owners by will, TODD, or intestacy. The person claiming the property as a residence homestead is called the "heir property owner," and is considered the sole owner of the property for purposes of the property tax homestead exemption. This homestead exemption does not, however, affect actual legal title.

SB 1943 was signed by the Governor on June 10th and is effective September 1st.

7.7 Obtaining Medical Records From State Hospital (H&S Code Sec. 611.0041). As introduced, **HB 1901** (Bonnen, G. | Taylor) would have authorized the appointment of a descendant of a deceased state hospital patient for the sole purpose of obtaining the patient's medical records from the state hospital. However, when it emerged from House Judiciary, it merely permits a professional to release mental health records of a deceased patient of a state hospital to a descendant if (1) the patient has been deceased at least 50 years and (2) there is no indication that the release is inconsistent with any prior expressed preference of the deceased patient or his or her personal representatives.

HB 1901 was signed by the Governor on June 14th and is effective September 1st.

8. Guardianships and Persons With Disabilities.¹³

8.1 The REPTL Guardianship Bill. REPTL's Guardianship bill was **SB 667** (Zaffirini | Thompson, S.).

Despite the fact that the bill originally passed 31-0 in the Senate, then 115-26 in the House (and the Senate concurred in the House amendments 31-0), **SB 667** was vetoed by the Governor on June 15th. His veto was accompanied by the following statement:

"Senate Bill 667 would make a number of improvements to the law governing probate and guardianship matters, but they unfortunately cannot take effect this session because of a section of the bill that would create new public guardianship offices controlled by counties. It has not been shown that it is necessary to add permanent county offices dedicated to this function. Private

¹³ Again, section references are to the Texas Estates Code unless otherwise noted.

attorneys are capable of handling these cases without the expense of this new bureaucracy.”

The objection raised by the Governor was to the non-REPTL language of **SB 1426** added to the REPTL Guardianship bill during the legislative process. See Sec. 8.1(p) below.

Here are the guardianship provisions that were included in **SB 667** (none of which will go into effect due to the Governor's veto):

(a) Matters Related to Guardianship Proceeding (Sec. 1021.001). This section has contained two definitions of a matter related to a guardianship proceeding: subsection (a) for counties **without** a statutory probate court, and subsection (b) for counties **with** a statutory probate court. This change leaves subsection (a) to define those matters in counties without **either** a statutory probate court or a county court at law and inserts a new subsection (a-1) applicable to counties without a statutory probate court but with a county court at law (adding the interpretation and administration of a trust in which a ward is a beneficiary).

Subsections (b) through (f) describe non-REPTL provisions that were added to **SB 667** on the House floor from **SB 1975** (Zaffirini | Thompson, S.):

(b) Attorney Certification (Sec. 1054.201 & Gov't Code Sec. 81.114). Any attorney representing **any** person in a guardianship proceeding must obtain guardianship education certification, not just the applicant's attorney and any court-appointed attorney. (An attorney who doesn't have the certification may enter an appearance but must complete the course requirements within 14 days and prior to filing any substantive pleading.) A guardianship certification course must be low-cost and available to persons throughout this state, including on the Internet provided through the State Bar.

(c) Applicant's Former Name and Liquid Assets (Sec. 1101.001). An application for guardianship must include the applicant's former name, if any, and the approximate value of the proposed ward's liquid assets (instead of "property").

(d) Waiver of Guardianship Training (Sec. 1101.153). If an order appointing a guardian waives the training requirement, it must contain a finding that the waiver is in accordance with rules adopted by the Supreme Court.

(e) Criminal History Record Fee (Sec. 1104.402, 1104.403, & 1104.405). The clerk's authority to charge a \$10 fee for obtaining criminal history information relating to a proposed private

professional guardian or his or her representatives is repealed.

(f) Attendance at Legal Proceeding (Sec. 1151.005). A guardian may not be excluded from attending a legal proceeding in which the ward is a party or participating as a witness.

(g) Wards' Bill of Rights (Sec. 1151.351). This change amends the right set forth in subsection (b)(12) to clarify that only a court investigator or guardian ad litem (and not an attorney ad litem) may be appointed to investigate a complaint relating to modification or termination of a guardianship, which is consistent with the procedure set forth in Sec. 1202.054.

(h) Notice to Creditors (Sec. 1153.001). This change requires that the general notice to creditors be published in a newspaper of general circulation in the county, rather than one printed in the county. The notice must be posted only if there's no newspaper of general circulation. (This is similar to the 2017 change relating to publication of the notice to creditors in decedents' estates.)

(i) Attorney's Fees (Sec. 1155.054). This is a terminology change. Instead of **requiring** a party to reimburse certain attorney's fees, a court may **order** the party to reimburse those fees.

(j) Costs (Sec. 1155.151). Costs of a guardianship proceeding are to be paid out of the guardianship estate. This change adds the requirements that a guardianship of the estate be created and it's in the ward's best interest.

(k) Agency References (Secs. 1163.005 & 1163.101). References to the Department of Aging and Disability Services are changed to the Health and Human Services Commission, while references to the Guardianship Certification Board are changed to the Judicial Branch Certification Commission.

(l) Transfer of Guardianship to Foreign Jurisdiction (Sec. 1253.001). Another non-REPTL provision that comes from **SB 1975** allows a court to transfer a guardianship to a foreign jurisdiction to which the ward has permanently moved on its own motion, not just on motion of the guardian.

(m) Ch. 1301 Management Trusts. Several changes are made relating to management trusts under Ch. 1301.

(i) Notice (Sec. 1301.0511). The notice provisions when an application for creation of a management trust are made identical to the provisions applicable to the creation of a guardianship. Plus any currently serving guardian must also be served.

(ii) Termination Provisions (Secs. 1301.101 & 1301.203). The terms of a management trust must provide for its termination upon a minor beneficiary's death or 18th birthday (unless the court provides for a later date no later than the beneficiary's 25th birthday), whichever occurs first, or upon an adult incapacitated beneficiary's death, a finding by the court that continuation of the trust is no longer in the beneficiary's best interests, or when the adult beneficiary regains of capacity.

(iii) Accounting (Sec. 1301.154). Both the guardian of the estate and the guardian of the person must receive a copy of the annual account (not either).

(n) Sale of Property by Nonresident Guardian (Secs. 1355.002 & 1355.105). These changes clarify that money held in the clerk's registry is to be paid to the nonresident guardian, not the nonresident minor or incapacitated ward.

(o) Criminal History Record of Proposed Guardian (Gov't Code Secs. 155.202 & 155.205). A criminal history record is currently required for any *applicant* if the proposed ward's liquid assets exceed \$50,000. Two non-REPTL additions to the bill make this requirement applicable to any *proposed guardian*, rather than applicant, and expand the requirement to any proposed guardian who is not a Texas resident, regardless of the liquid asset value.

(p) Office of Public Guardian. SB 1426 (Zaffirini | Thompson, S.) appeared to be a second attempt to pass 2017's **SB 1325** (Zaffirini | Thompson, S.). This non-REPTL bill was added to **SB 667** on the House floor. It authorizes a commissioners court to establish an "office of public guardian." The position may be full or part-time, may be shared with another county, and may be filled through an agreement with a nonprofit guardianship program or private professional guardian in that county or an adjacent county. The term of the public guardian is five years, and the public guardian may employ personnel to facilitate carrying out the duties of the office. The public guardian is compensated by the commissioners court, and is not entitled to standard guardian commissions, which makes sense since the office may be appointed to serve in cases where there are not enough assets or resources to pay a private professional guardian. A public guardian may also be appointed if the court finds the ward resides in the county and (1) the ward does not have sufficient assets to pay a private professional guardian and the appointment of a public guardian is in the ward's best interest, or (2) the ward has sufficient assets to pay a private professional guardian, the appointment of a public guardian is in the ward's best interest, and (a) the ward's family members who are eligible for appointment

agree to the appointment of the public guardian to serve as guardian, or are unable to agree on the person that should serve, or (b) the ward does not have any family member, friend, or other suitable person is willing to act. No single person in the office of public guardian may be appointed as guardian in more than 35 cases.

(q) Notice and Filing Under Mental Health Code (H&S Code Secs. 571.013 & 571.014). SB 395 (Zaffirini | Hinojosa) is a non-REPTL bill that was added to **SB 667** on the House floor. It requires personal delivery of notices in proceedings under the Texas Mental Health Code to be made by a county constable or sheriff. In addition, copies of papers may be filed in the proceedings. Anyone filing a reproduced, photocopied, or electronically transmitted paper must maintain possession of the originals and make them available for inspection on request by the parties or the court.

As noted, **SB 667** was vetoed by the Governor on June 15th.

8.2 Compensation of Guardians of Medicaid Recipients (Sec. 1155.202). SB 1784 (Zaffirini | Leach) increases the compensation that may be paid to a guardian appointed to receive Medicaid from \$175/month to \$250/month.

SB 1784 was signed by the Governor on June 2nd and is effective immediately.

8.3 Online Notice by Publication (Secs. 51.054, 51.103, 1051.054, & 1051.153). See Sec. 14.2 on page 19.

8.4 Exemption From Reporting Requirements (Gov't Code Secs. 36.003 & 37.002). See Sec. 14.4 on page 20.

8.5 Electronic Database for Settlement Agreements Involving Minors or Incapacitated Persons (Gov't Code Sec. 72.034). HB 770 (Davis, S. | Zaffirini) would have the Office of Court Administration establish an electronic database containing personal injury or wrongful death settlement agreements for which a minor or incapacitated person is the beneficiary. The agreement would remain confidential, would be accessible only by the parties, their attorneys, or the guardian, next friend, or guardian ad litem of a party. The OCA may charge a fee, not to exceed \$50, for recording a settlement agreement in the database. That fee is a considered a court cost to be included for payment in the settlement agreement.

HB 770 was signed by the Governor on June 10th and is effective September 1st.

8.6 Guardianship Abuse, Fraud, and Exploitation Deterrence Program (Gov't Code Secs. 72.121 – 72.124). SB 31 (Zaffirini, *et al.* |

Smithee, *et al.*) would establish a guardianship abuse, fraud, and exploitation deterrence program within the Office of Court Administration designed to provide additional resources and assistance to courts that have jurisdiction over guardianship proceedings. This could include engaging guardianship compliance specialists who could review guardianships to identify deficiencies by guardians, audit annual accounts, develop best practices for managing guardianships, and report concerns of potential abuse, fraud, or exploitation to the appropriate courts. The program could also maintain a database monitoring filings of inventories, annual reports, and annual accounts. Courts selected by the OCA for review and audit would be required to participate, or courts could apply to participate. The director of the OCA may notify the State Commission on Judicial Conduct if the OCA has reason to believe that a judge's actions or failure to act with respect to a report received from the OCA may constitute judicial misconduct.

SB 31 was filed with the Secretary of State without the Governor's signature on June 14th and is effective September 1st.

8.7 Task Force on Best Practices for Detention.

HB 3116 (White | West) would establish a task force to conduct a comprehensive study on best practice standards for the detention of a person with an intellectual or developmental disability.

HB 3116 was signed by the Governor on June 10th and is effective September 1st.

8.8 **Use of Person First Respectful Language.** In 2011, the legislature enacted Gov't Code Ch. 392, the intent of which is found in Sec. 392.001:

Sec. 392.001. FINDINGS AND INTENT. The legislature finds that language used in reference to persons with disabilities shapes and reflects society's attitudes toward persons with disabilities. Certain terms and phrases are demeaning and create an invisible barrier to inclusion as equal community members. It is the intent of the legislature to establish preferred terms and phrases for new and revised laws by requiring the use of language that places the person before the disability.

Sec. 392.002 put the following terms on the "naughty" list: disabled; developmentally disabled; mentally disabled; mentally ill; mentally retarded; handicapped; cripple; and crippled. Instead, the legislature encouraged the use of the following phrases on the "nice" list in enacting or revising statutes or resolutions: "persons with disabilities;" "persons with developmental disabilities;" "persons with mental illness;" and "persons with intellectual disabilities."

Several bills along these same lines have been filed this session:

- **SB 281** (Zaffirini | González, M.) adds the following terms to the "naughty" list: hearing impaired; hearing loss; audiologically impaired; auditory impairment, and speech impaired. And the following phrases are added to the "nice" list: "deaf," "persons who are deaf," "hard of hearing," and "persons who are hard of hearing." Note that statutes and resolutions aren't invalid for failure to use the preferred terms.

SB 281 was signed by the Governor on May 25th and will be effective September 1st.

- **HB 965** (González, M. | Zaffirini) changes the terms "mentally retarded" or "mental retardation" to "intellectual or developmental disability[ies]" and the term "the mentally retarded" to "persons with intellectual disabilities" in a number of Education Code statutes.

HB 965 was signed by the Governor on June 14th and is effective September 1st.

Drafting Tip

While there's certainly no requirement that you follow the same guidelines in the documents you prepare, it certainly wouldn't hurt.

8.9 **Signature Authority Over ABLE Account.** If the designated beneficiary of an ABLE account under IRC Sec. 529A is not able to exercise signature authority or chooses not to exercise signature authority, **SB 1184** (Perry, *et al.* | Klick) allows a parent, *legal guardian*, or other fiduciary of the beneficiary to do so if permitted by Sec. 529A.

SB 1184 was signed by the Governor on June 7th and is effective immediately.

8.10 **Court-Ordered Support Paid to SNT.** **HB 558** (Thompson, S. | Rodríguez, *et al.*) would allow a court to direct that support for an adult child with a disability be paid to a special needs trust for the child. The bill provides that this change constitutes a material and substantial change of circumstances under Family Code Sec. 156.401 sufficient to warrant modification of an existing court order.

HB 558 was signed by the Governor on June 2nd and is effective September 1st.

8.11 **Phishing Against the Elderly.** **HB 883** (Thierry | Zaffirini) allows a court to triple the actual damages awarded under our Anti-Phishing Act (found in Bus. & Comm. Code Ch. 325) if the target of the phishing is an elderly individual.

HB 883 was signed by the Governor on May 28th and is effective September 1st.

8.12 Adult Survivors of Sexual Assault. **HB 4531** (Neave, *et al.* | Zaffirini) requires a health care facility to provide a forensic examination and treatment to an adult survivor of a sexual assault who has a guardian, without the guardian's consent, if (1) the facility determines the survivor understands the nature of the exam and treatment, and (2) the survivor agrees to the exam and treatment. If the facility determines the survivor is potentially incapable of consent, it may obtain consent from the survivor's relative, caretaker, or guardian or petition the probate court for an emergency order authorizing the exam and treatment. If the facility knows or has reason to believe that the survivor's relative, caretaker, or guardian is suspected or an accomplice in the sexual assault, it may not contact that person. A health care facility may not provide the medical exam to an adult survivor with a guardian if the survivor refuses the exam, regardless of whether the survivor's guardian requests or consents to the exam. This right to make decisions related to sexual assault crisis services is added to the ward's bill of rights

HB 4531 was signed by the Governor on June 14th and is effective September 1st.

8.13 Mental Health Services and Emergency Detention. **SB 1238** (Johnson | Rose) contains several provisions related to mental health services and emergency detention

(a) Admission of Person for Voluntary Mental Health Services. The original bill requires a person admitted to a facility for voluntary mental health services to receive a physical and psychiatric exam within 72 hours before or 24 hours after admission. If the exam is after admission, the person must be discharged if the examining physician determines the person does not meet clinical standards for inpatient mental health services (and the facility may not bill the patient for temporary admission).

(b) Provision of Mental Health Services to Minor (H&S Code Sec. 572.001). On the House floor, the substance of **HB 1318** (Moody | Rodriguez) was added to the Senate bill. It authorizes a grandparent, adult sibling, or adult aunt or uncle who's had actual care, custody, and control of a minor for at least six months to seek a court order for temporary inpatient mental health services.

(c) Authority for Emergency Detention (H&S Code Sec. 573.001). Another provision incorporated from **HB 1318** clarifies that the authority

of a peace officer to take a person into custody for an emergency detention without a warrant applies *regardless of age*.

SB 1238 was signed by the Governor on June 14th and is effective September 1st.

8.14 Mental Health Services and Emergency Detention. **SB 362** (Huffman, *et al.* | Price) revises the procedures for court-ordered mental health services for criminal defendants.

SB 362 was signed by the Governor on June 10th and is effective September 1st.

8.15 Authority to Release Person With Intellectual or Developmental Disability In Lieu of Arrest. **HB 3540** (Burns, *et al.* | Hughes) authorizes a peace officer to release a person with an intellectual or developmental disability who resides at a group home or an intermediate care facility at the person's residence if the officer (1) believes confinement in a correctional facility is unnecessary to protect the person and other residents, and (2) made a reasonable effort to consult with the person and the residence staff.

HB 3540 was signed by the Governor on June 5th and is effective September 1st.

8.16 Criminal Defendant Suspected of Mental Illness or Intellectual Disability. **HB 601** (Price, *et al.* | Zaffirini) expands procedures for early identification or releasing on bond of a defendant suspected of mental illness by, among other things, including an interview by the local mental health authority or intellectual and developmental disability authority service provider that contracts with the jail.

HB 601 was signed by the Governor on June 14th and is effective September 1st.

9. Trusts.¹⁴

9.1 The REPTL Trusts Bill. REPTL's Trust bill is **HB 2245** (Wray, *et al.* | Rodriguez).

(a) Mandatory Rules – Trustee's and Attorney's Fees (Sec. 111.0035). Added to the list of mandatory trust terms that may not be altered by the settlor are the court's ability to deny or order the return of trustee's fees and to make an "equitable and just" award of costs and attorney's fees under Sec. 114.064.

(b) Incorporation of Will Construction Concepts Into Revocable Trusts (Sec. 112.0335). The provisions of Estates Code Ch. 255, relating to the construction and interpretation of wills (*e.g.*, pretermitted children, advancements, lapsed gifts, class

¹⁴ Section references are to the Texas Property Code unless otherwise noted.

closing, and more) are made applicable to trusts revocable by the settlor, or the settlor and the settlor's spouse. In addition, the abatement provisions of Estates Code Sec. 355.109 are made applicable to those trusts.

(c) Effective Date of Reformations (Sec. 112.054). This change clarifies that a judicial reformation of a trust (as opposed to a modification), because of the very nature of reformations, is effective as of the creation of the trust.

(d) Decanting Into the Same Trust? (Sec. 112.0715) This change "clarifies" that the second trust to which trust assets are decanted may be created under the same trust instrument as the first trust, in which case the property need not be retitled, or under a different instrument. The language specifically states that it's intended to be a clarification of the common law. What's the point? Well, it's hoped that this will allow a trustee to decant into a new trust with the same name and TIN as the original trust, reducing the transaction costs of changing title to the assets. We'll see.

(e) Effect of Divorce on Certain Transfers in Trust (Secs. 112.101-112.105). The provisions currently found in Estates Code Secs. 123.051-123.056, relating to the effect of divorce on revocable dispositions in trust in favor of a former spouse and the former spouse's family are copied to the Trust Code (where they really belong). At some point, they may be repealed from the Estates Code.¹⁵

(f) Termination of Ch. 142 Trusts (Sec. 142.005). The required termination provisions of a court-created trust governed by Property Code Ch. 142 are revised in a manner similar to the revisions found in REPTL's Guardianship bill to court-created trusts governed by Estates Code Ch. 1301 (*see* Sec. 8.1(g)(ii) on page 14).

(g) Pooled Trust Subaccounts (Sec. 142.010 and Ch. 143). New Ch. 143 provides for pooled trust subaccounts, and the transfer of assets from a Ch. 142 management trust to a pooled subaccount, for example, if the initial trustee can no longer serve and no suitable replacement for the unpooled trust can be found.

HB 2245 was signed by the Governor on June 14th and is effective September 1st.

9.2 The REPTL Directed Trusts Bill (Sec. 114.0031). REPTL's Directed Trust bill is **HB 2246** (Wray | Rodríguez). It amends our directed trust provision to clarify that the person with the authority to direct, consent to, or disapprove the trustee's decisions is an "advisor," and is a fiduciary. An

exception to the fiduciary characterization is the power solely to remove and appoint trustees, advisors, trust committee members, or other protectors, and the advisor does not exercise the power to appoint himself or herself. Also, the fiduciary requirement does not prohibit the exercise of a power that must be exercised in a nonfiduciary capacity for someone to be treated as the owner of a trust for federal income tax purposes.

HB 2246 was signed by the Governor on May 31st and is effective September 1st.

10. Disability Documents.

10.1 The REPTL Financial Power of Attorney Bill. REPTL's Financial Power of Attorney bill is ... Just kidding. After the significant overhaul of the financial power of attorney statutes in 2017, REPTL decided to give them a rest this session. (However, the nonsubstantive Leg. Council code update bill does repeal an extra "a" from Est. Code Section 752.113(c). *See* Sec. 3.12 on page 5.)

10.2 The REPTL Medical Power of Attorney Bill. REPTL's Medical Power of Attorney bill was **SB 310** (Rodríguez). **This bill did not pass.** Its main goal was to make the statutory form of medical power of attorney optional, so people could use other forms, such as the **Five Wishes** document, the **ABA's simple form**, or some other form as a standalone document. According to the **ABA's webpage on medical powers**, as of August 2018, their form "complies with state legal requirements for a valid power of attorney for health care in almost every state. *Only five states have laws so inflexible and cumbersome that the bare bones power will not work:* Indiana, New Hampshire, Ohio, **Texas**, and Wisconsin." The site even has a separate section discussing the problems with what it calls the "Forbidding Five." Despite the fact that Texas is part of this 10% minority, this is the second consecutive session that the Texas Medical Association and the Texas Hospital Association have opposed the change and prevented passage. More information on what the bill contained can be found on page 32.

10.3 The REPTL Anatomical Gift Bill (Health & Saf. Code Ch. 692 & Secs. 692A.005-007). REPTL's Anatomical Gift bill was **HB 2247** (Wray) and **SB 258** (Rodríguez). **This bill did not pass.** It would have allowed a statement of anatomical gift, a revocation of same, or a refusal to make an anatomical gift to be acknowledged in the presence of a notary instead of two

¹⁵ These provisions are inserted as new Subchapter D of Chapter 112. Current Subchapter D, which contains the

decanting statutes, is relettered as Subchapter E. Don't worry though – none of the section numbers have changed.

witnesses.¹⁶ Despite lack of any apparent opposition, it failed to get a vote on the House floor in time to pass.

Drafting Tip

When my clients bring this up, I usually encourage them to register at the Glenda Dawson Donate Life Texas Registry which allows them to become organ, eye, and tissue donors. That way, the client's wishes will be documented and readily available to health care providers at the time of donation, while access to the anatomical gift form you've prepared may not be. Anyone can register at:

<https://www.donatelifetexas.org/>

The registry also has partnerships with the Texas DPS and DMV that allow individuals to join the donor registry when applying for or renewing their driver's license, ID, or vehicle registration.

Should the client want to donate something in addition to organs, eyes, and tissue, then the separate anatomical gift statement may still be warranted.

10.4 The REPTL Disposition of Remains Bill (Health & Saf. Code Secs. 711.002 & 711.004). REPTL's Disposition of Remains bill is **HB 2248** (Wray | Rodríguez). The bill revokes the authority of a spouse if the marriage is dissolved before the decedent's death. It clarifies that a court with jurisdiction over probate proceedings for the decedent (whether or not commenced) has jurisdiction over a dispute regarding disposition of remains. However, a dispute over removal of remains is heard in a **county** court in the county where the cemetery is located.

HB 2248 was signed by the Governor on June 10th and is effective September 1st.

Drafting Tip

You can find the changes to the statutory form as a result of this bill in the separate statutory language supplement. See Sec. 1.5 on page 1.

10.5 Anatomical Gifts. Here are several bills related to anatomical gifts:

- As passed, **HB 406** (Price, *et al.* | Zaffirini) requires the Parks and Wildlife Dep't. to add a link to the Glenda Dawson Donate Life-Texas Registry on their website for persons applying online for a fishing or hunting license.

HB 406 was signed by the Governor on June 10th and is effective September 1st.

- HB 2734** (Burrows) directs the DSHS executive commissioner to promulgate a form allowing the guardian of a resident of a state supported living center to make an anatomical gift on the resident's behalf.

HB 2734 was signed by the Governor on June 10th and is effective September 1st.

10.6 In-Hospital DNR Orders (Health & Saf. Code Secs. 166.201-166.209). The 2017 special session led to the passage of **SB 11** (Perry, *et al.* | Bonnen, G., *et al.*), a bill that for the first time outlined procedures for issuing and revoking **in-hospital** DNR orders, as opposed to out-of-hospital DNR orders that are already dealt with in Subch. C of Health & Saf. Code Ch. 166. (See the description of the bill in the **2017 legislative update** for further description of the bill). The changes contained in the bill went into effect April 1, 2018.

(a) September 2018 Hearing. According to an article in the September 7, 2018, edition of the Austin American-Statesman, a hearing the previous day before the Senate State Affairs Committee included accusations by its chairman of violations of unwritten rules of conduct by several legislators relating to the bill. In accordance with directions contained in **SB 11**, shortly after the changes took effect, the Health and Human Services Commission published proposed rules implementing the law (see **43 TexReg 2355**). During the public comment period, Sen. Charles Perry and Rep. Greg Bonnen, who shepherded **SB 11** through the special session, sent a letter to the agency seeking changes to the proposed rules that would prevent hospital ethics committees from approving a doctor's request to halt life-sustaining care. In Texas, if a doctor believes continued treatment would inhumanely extend suffering, the doctor may appeal to an ethics committee for approval to halt life-sustaining care. The ethics committee may then order that treatment be halted in 10 days.

SB 11 is silent on whether ethics committee intervention is allowed with respect to the DNR orders dealt with by the changes, and that was intentional in order to obtain passage of the bill through a carefully-crafted compromise. Perry and Bonnen were specifically directed to ensure that no changes were made to **SB 11** on either chamber's floor. At the September 6th hearing, Sen. Byron Cook, chair of the State Affairs Committee,

subsection (d) in place, but the rest of Sec. 692.003 was repealed, along with the rest of Ch. 692. The REPTL bill repeals the scrap of Ch. 692 that's left.

¹⁶ In 2009, when **HB 2027** replaced the Uniform Anatomical Gift Act found in Ch. 692 with the *Revised* Uniform Anatomical Gift Act found in new Ch. 692A, **SB 1803** separately amended Sec. 692.003(d) of the old act. That left

stated that the letter sent by Perry and Bonnen regarding the proposed rules violated the special session compromise. Cook also said that several of the over 60 other legislators who signed the Perry-Bonnen letter felt misled about its contents and wanted their names removed from it. As of the date of this version, no final rules have been adopted.

(b) Revocation of In-Hospital DNR Orders (Health & Saf. Code Sec. 166.205). This session, **HB 3332** (Frank) would have directed a physician to revoke a patient's DNR order if the advance directive on which the DNR order is based is revoked. However, it failed to receive a hearing.

11. Nontestamentary Transfers.

11.1 The REPTL Decedents' Estates Bill – Repeal of Statutory TODD Forms See Sec. 7.1(d) on page 8.

11.2 TODD Forms (Gov't Code Sec. 22020 & Est. Code Ch. 114). Back in 2015, **SB 512** directed the Supreme Court to promulgate forms with accompanying instructions for use in certain probate matters or in making certain wills. (They've made progress but they're still working on it.) While REPTL's Decedents' Estates bill repeals the statutory TODD forms, this session's **SB 874** (Huffman | Farrar) goes a step further. It repeals those statutory forms, but adds TODD forms, and forms for revoking TODD's, to the list of forms the Supreme Court should promulgate.

SB 874 was signed by the Governor on May 31st and is effective September 1st.

12. Exempt Property.

12.1 The REPTL Exempt Savings Plan Bill (Prop. Code Secs. 42.0021, 42.0022, & 42.005). REPTL's Exempt Savings Plan bill is **HB 2779** (Wray | Rodriguez). The provisions of current Prop. Code Sec. 42.0021, previously relating solely to the creditor exemption for retirement plans, are clarified and reorganized to be more readable and incorporate the provisions of Sec. 42.0022, relating to the creditor exemption for college savings plans. (The latter section is repealed.) Sec. 42.005, which made the exemptions found in Sec. 42.0021 inapplicable to child support liens, was amended to exclude the education-related exemptions previously found in Sec. 42.0022 from becoming subject to those liens.

HB 2779 was signed by the Governor on May 31st and is effective September 1st.

13. Jurisdiction and Venue.

13.1 The REPTL Decedents' Estates Bill – Removal of Will Reformation. See Sec. 7.1(h) on page 9.

13.2 The REPTL Guardianship Bill – Matters Related to Guardianship Proceeding. See Sec. 8.1(a) on page 13.

13.3 The REPTL Disposition of Remains Bill – Courts With Jurisdiction. See Sec. 10.4 on page 18.

13.4 Transfer of Guardianship to Foreign Jurisdiction (Sec. 1253.001). See Sec. 8.1(l) on page 13.

13.5 Jurisdiction of Certain Courts. SB 2342 (Creighton | Leach) increases the upper limit of statutory county court jurisdiction in civil cases from \$200,000 to \$250,000 and makes other jurisdictional changes. In addition, the provisions of **HB 1380** (Murr) were incorporated into the bill. In a county with a population of less than 250,000, county and justice courts would have concurrent jurisdiction where the amount in controversy does not exceed \$20,000, up from \$10,000, although a commissioners court may reverse that increase in its county. In larger counties, the limit remains at \$10,000. Similar changes are made for justice courts where exclusive jurisdiction is not in the district or county courts.

SB 2342 was signed by the Governor on June 10th and is effective September 1, 2020.

14. Court Administration.

14.1 The REPTL Decedents' Estates Bill – Recusal of Presiding Statutory Probate Judge. See Sec. 7.1(u) on page 11.

14.2 Miscellaneous Court Administration Changes in REPTL's Guardianship Bill. SB 1975 (Zaffirini | Thompson, S.) made several changes related to court administration. Its language was added to **SB 667** (Zaffirini | Thompson, S.), the REPTL Guardianship bill, on the House floor.

SB 667 was vetoed by the Governor on June 15th, so none of the changes described below in this Sec. 14.2 will go into effect. See the discussion of his veto statement following the introductory paragraph of Sec.8.1.

(a) Last Three Digits (Civ. Prac. & Rem. Code Sec. 30.014). One change extends the Civil Practice & Remedies Code provision requiring a party's initial pleading in a civil action to include the last three numbers of the party's driver's license and social security numbers in district, county, and statutory county courts to specifically include probate and guardianship proceedings, and to specifically apply to statutory probate courts.

(b) Transfer of Clerk's File (Secs. 33.101-33.103 & 1023.006-1023.007). Another change authorizes transfer of the clerk's file in **either** electronic

or paper form when a case is transferred (i) because venue is proper in another county, (ii) because the transferring court does not have priority of venue, or (iii) for the convenience the estate.

(c) Citation Signed Under Court's Seal (Secs. 51.003 & 1051.003). A citation of notice issued by the county clerk must be signed under the *court's* seal, not the clerk's seal.

(d) Bond Extended to Visiting Judge (Gov't Code Secs. 25.0006, 25.00231, and 26.001). The coverage of the bond of the judge of a constitutional county court, statutory county court, or statutory probate court is extended to any visiting judge assigned to the court.

As noted, **SB 667** was vetoed by the Governor on June 15th.

14.3 **Online Service.** **SB 891** (Huffman, *et al.* | Leach, *et al.*) is an omnibus bill that makes a number of changes affecting the judicial branch.¹⁷ However, of interest to us are several changes relating to serving notice.

(a) Online Notice by Publication (Secs. 51.054, 51.103, 1051.054, & 1051.153; C.P. & R. Code Sec. 17.032). In addition to publication in a newspaper of general circulation, notice will be required to be posted on a public information website created and maintained by the Office of Court Administration. Exceptions to newspaper publication are provided based on inability to afford payment, the newspaper's publication cost (> \$200 each week, adjusted for inflation), or lack of a circulated newspaper in the county of publication. The specific amendments to Estates Code Secs. 51.054 and 1051.054 provide that the date of service is the *earlier* of the date published in the newspaper or posted on the public information website. Proof of service will consist of the publisher's affidavit *and* an affidavit obtained from the OCA. The option for posting notice at the courthouse where there is no newspaper published, printed, or in general circulation in the county is repealed.

(b) Substituted Service Through Social Media (C.P. & R. Code Sec. 17.033). A new provision allows substituted service through social media presence in cases where substituted service is authorized under the TRCP pursuant to rules to be adopted by the Supreme Court.

SB 891 was signed by the Governor on June 10th and while the bill is generally effective September 1st, the provisions described above go into effect June 1, 2020.

14.4 **Expedited Action Rules (Gov't Code Sec. 22.004).** **SB 2342** (Creighton | Leach) amended the statute directing the Supreme Court to adopt rules expediting certain actions where damages do not exceed \$100,000 by prohibiting the rules from conflicting with other statutory law. In addition, the Court is directed to adopt rules (before 2021) to promote prompt, efficient, and cost-effective resolution actions in county courts at law where damages do not exceed \$250,000, balancing the need for lowering costs against the complexity of and discovery needs. Again, the rules may not conflict with other statutory law.

SB 2342 was signed by the Governor on June 10th and is effective September 1, 2020.

14.5 **Exemption From Reporting Requirements (Gov't Code Secs. 36.003 & 37.002).** Gov't Code Sec. 36.004 requires court clerks to prepare monthly reports listing court appointments for an attorney ad litem, guardian ad litem, guardian, mediator, or competency evaluator. Gov't Code Sec. 37.003 requires courts to maintain lists of attorneys registered with the court as qualified to serve as attorney ad litem; attorneys and other persons registered with the court as qualified to serve guardian ad litem; persons registered with the court to serve as a mediator; and attorneys and private professional guardians registered with the court as qualified to serve as a guardian. **SB 41** (Zaffirini | Smithee) exempts from these reporting requirements attorneys ad litem, guardians ad litem, and guardians who serve pro bono or are volunteers of a nonprofit organization that provides pro bono legal services. The bill also allows a court to appoint a person other than the first person on the normal appointment rotation list if a state of disaster had been declared for the area served by the court within the preceding 30 days.

SB 41 was signed by the Governor on June 10th and is effective September 1st.

14.6 **Associate Judges for Guardianship and Protective Services Proceedings (Gov't Code Ch. 54A).** Existing Subchapter C of Gov't Code Ch. 54A authorizes associate judges in statutory probate courts. **SB 536** (Zaffirini | Murr) would have added a new Subchapter D that would authorize the appointment of associate judges to hear guardianship and protective services proceedings in courts other than statutory probate courts.

¹⁷ Among them, the county court at law in Reeves County is given concurrent jurisdiction with the district court in disputes ancillary to probate, actions by or against a personal

representative, and actions trusts of any type, regardless of the amount in controversy, the remedy sought, or whether the matter is appertaining to or incident to an estate.

Despite the fact that the bill passed 29-2 in the Senate and 140-1 in the House, **SB 536** was vetoed by the Governor on May 27th. His veto was accompanied by the following statement:

“Senate Bill 536 highlights that the answer to a perceived problem cannot always be to throw more state money and bureaucracy at it. The Legislature has not shown that it is necessary to create new associate judgeships to specialize in guardianship proceedings, and Senate Bill 536 was misguided in its attempt to create this expensive new system. The Legislature should find a better way to address this issue.”

Despite Gov. Abbott’s assertion that this bill would create an “expensive new system,” the Legislative Budget Board’s fiscal note states that an analysis by the Office of Court Administration indicated that the bill could be implemented by utilizing existing resources. Counties would not be required to adopt an associate judge program, and OCA anticipated that no associate judges would be appointed unless the host county had sufficient funds to provide facilities and services. “Therefore, no significant fiscal impact to local government is anticipated.”

14.7 New Travis County Probate Court and Building.¹⁸ As practitioners in Travis County know, the facilities available for the county’s lone statutory probate court are cramped, to say the least. That’s why, despite the overwhelming need for a second court, Travis County still has only one statutory probate court. However, after standing vacant since 2012 when the federal courts moved to their new courthouse, it was announced at the end of 2016 that the old federal courthouse (dating back to about 1935)¹⁹ would be donated to Travis County for use by its probate court(s) and the probate division of the county clerk’s office. The county will need to spend an estimated \$28 million (or more, since that estimate dates back to 2016) to modernize the old courthouse while maintaining many of the architectural details. In a conversation with this author in January, 2019, Judge Guy Herman indicated that they hope to move into the new facility by late 2020, and that a bill to authorize a second probate court would likely follow in the 2021 session.

15. Selected Marital Issues.

15.1 Agreements Incident to Divorce or Annulment Incorporated by Reference (Fam Code Sec. 7.006). **HB 559** (Thompson, S. | Huffman, Rodríguez, Zaffirini) provides that if a court approves a

written agreement incident to a divorce or annulment and incorporates the agreement by reference in the final decree, the agreement itself is no longer required to be filed with the court or the clerk. This change applies whether the decree was signed before or after the effective date of the amendment.

HB 559 was signed by the Governor on May 24th and is effective immediately.

15.2 Disclosure of Gestational Agreement; Standing (Fam Code Secs. 6.406 & 102.003). **HB 1689** (Deshotel | Miles) provides that if the parties in a divorce proceeding are the intended parents under a gestational agreement, the petition must state those facts, whether the gestational mother is pregnant or a child subject to the agreement has been born, and whether the agreement has been validated under Fam. Code. Sec. 160.756. An intended parent under a gestational agreement is also granted standing to file a SAPCR if that person files jointly with the other intended parent, or files against the other intended parent.

HB 1689 was signed by the Governor on May 23rd and is effective September 1st.

16. Stuff That Doesn’t Fit Elsewhere.

16.1 The Uniform Electronic Legal Material Act. **HB 402** (Thompson, S. | Zaffirini) adopts the Uniform Electronic Legal Material Act, which deals with issues related to online distribution of legal materials by state government. Since electronic information is susceptible to unauthorized alterations, whether the information is trustworthy or authentic becomes a major issue. A second issue is how legal information with long-term historic value is preserved for future use, and how the accessibility of older materials is maintained. To quote the prefatory note to the uniform act, “the goals of the authentication and preservation program outlined in the act are to enable end-users to verify the trustworthiness of the legal material they are using and to provide a framework for states to preserve legal material in perpetuity in a manner that allows for permanent access.”

HB 402 was signed by the Governor on May 24th and is effective September 1st.

16.2 The Save Historic Muny District. **Last session’s legislative update** contained an entire “special supplement” discussing **SB 822** which would have required the UT System to transfer the property known to Austinites as the Muny Golf Course to the Parks and

¹⁸ This is only included in the paper because I practice in Travis County, and therefore care about it.

¹⁹ The old federal courthouse has been described both as art deco, and as “Depression-era Moderne.” I don’t know if those

two descriptions conflict. More information about the old building can be found [here](#).

Wildlife Department. The bill did not pass, but discussions between UT and Austin about the future of the golf course (or at least the land on which it sits) continued. This session, no similar bill was filed, but Sen. Kirk Watson filed **SB 2553** (Watson), which would create the Save Historic Munny District.

The district would provide a mechanism for the community to directly contribute to securing the golf course from UT by voting to pay a fee that would help fund the acquisition of the property. The bill would not allow the district to impose a tax but could allow the imposition of an added “fee” on utility bills if approved by voters in the district. The district could also serve as a conduit for gifts for that purpose. The district would expire after

The Save Historic Munny District includes most of what's in this map (the golf course is the green patch in the middle left): everything south of W. 35th St. and W. 34th St. between the Colorado River (on the west and south) and Lamar Blvd.

2020 unless an election to impose a fee was successful or the district has entered into an agreement with the owner of MUNY (*i.e.*, UT) providing for the purchase of the land or a method of preserving it as a golf course, publicly available parkland, or some combination of the two.

SB 2553 was filed with the Secretary of State without the Governor's signature on June 14th and is effective September 1st.

16.3 Protection of Religious Beliefs and Moral Convictions. **SB 1978** (Hughes, *et al.* | Krause, *et al.*), nicknamed the Save Chick-fil-A bill, adds new Ch. 2400 to the Gov't Code. It prohibits any *governmental entity* from taking any *adverse action* against any *person* based on the person's belief or action in accordance with the person's sincerely held religious belief or moral conviction, including beliefs or convictions regarding marriage. (Italicized words are defined in the statute.) Remedies for violation of this prohibition include damages, injunctive relief, declaratory relief, and anything else appropriate, including attorney's fees. Exhaustion of administrative remedies is **not** required. Sovereign immunity is waived. The AG's office may bring an action against a governmental entity to enforce compliance.

SB 1978 was signed by the Governor on June 10th and is effective September 1st.

16.4 Proposed Change to Disciplinary Rules Regarding Clients with Diminished Capacity. On October 5th, we all received an e-mail from the State Bar notifying us that [the Committee on Disciplinary Rules and Referenda](#), established by the 2017 legislature (as part of the reauthorization of the State Bar following the Sunset Review process) to review the Texas Disciplinary Rules of Professional Conduct and the Texas Rules of Disciplinary Procedure and provide annual reports on their adequacy to the Supreme Court and the State Bar Board of Directors, had published [proposed changes to three disciplinary rules](#):

- Current Rule 1.02(g), which requires a lawyer to take reasonable action to secure the appointment of a guardian or other legal representative, or seek other protective orders, for a client the lawyer reasonably believes lacks legal competency, would be repealed.
- Rule 1.05(c)(9) would be added to allow a lawyer to reveal confidential information in order to secure legal advice about the lawyer's compliance with the rules.
- And most important, new Rule 1.16 would be added dealing solely with clients with diminished capacity. Here is the text of the proposed rule as it appeared in August 31st issue of the Texas Register and the September Texas Bar Journal:

Rule 1.16 Clients with Diminished Capacity

(a) When a client's capacity to make adequately considered decisions in connection with a representation is diminished, whether because of minority, mental impairment, or for another reason, the lawyer shall, as far as reasonably possible, maintain a normal client-lawyer relationship with the client.

(b) When the lawyer reasonably believes that the client has diminished capacity, is at risk of substantial physical, financial, or other harm unless action is taken, and cannot adequately act in the client's own interest, the lawyer may take reasonably necessary protective action. Such action may include, but is not limited to, consulting with individuals or entities that have the ability to take action to protect the client and, in appropriate cases, seeking the appointment of a guardian ad litem, attorney ad litem, amicus attorney, or conservator, or submitting an information letter to a court with jurisdiction to initiate guardianship proceedings for the client.

(c) When taking protective action pursuant to (b), the lawyer may disclose the client's confidential information to the extent the lawyer reasonably believes is necessary to protect the client's interests.

This proposed change appears to be based on [the ABA's Model Rule 1.14](#). Following a public hearing and comment period, the CDRR forwarded these proposed rule changes to the State Bar's Board of Directors, which in turn approved the proposed changes at its April 26th meeting. However, the board is holding them pending approval of other proposed changes so that all may be submitted at once to the Texas Supreme Court with a petition that the Supremes hold a referendum on them.

16.5 Comment Change to Disciplinary Rule Regarding Competent and Diligent Representation.

Rule 1.01 of the Texas Disciplinary Rules of Professional Conduct establishes the general rule that a "lawyer shall not accept or continue employment in a legal matter which the lawyer knows or should know is beyond the lawyer's competence" By order dated February 26, 2019, the Texas Supreme Court amended comment 8 to Rule 1.01 to add technological competence to the rule. That comment now reads:

8. Because of the vital role of lawyers in the legal process, each lawyer should strive to become and remain proficient and competent in the practice of law, *including the benefits and risks associated with relevant technology*. To maintain the requisite knowledge and skill of a competent practitioner, a lawyer should engage in continuing study and education. If a system of peer review has been established, the lawyer should consider making use of it in appropriate circumstances. Isolated instances of faulty conduct or decision should be identified for purposes of additional study or instruction.

16.6 Ethics Opinion No. 678 -- Serving as Executor and Attorney for Executor. The following is Prof. Gerry Beyer's description of this nonlegislative development:

In September, 2018, the Professional Ethics Committee for the State Bar of Texas clarified the ethical rules that apply when the same person serves as both the executor and the attorney for the executor:

Under the Texas Disciplinary Rules of Professional Conduct, a lawyer is not prohibited from serving as both executor and as counsel for the executor; however, the lawyer must evaluate whether there are conflicts of interests before and during the representation including any arising from the lawyer serving in the dual roles. If the representation of the executor will be adversely affected by the lawyer's or law firm's own interests, then the lawyer may not serve as counsel for the executor

unless the lawyer can obtain the consent required under the Texas Disciplinary Rules of Professional Conduct. If a lawyer cannot serve as counsel for the executor because of such a conflict, the other lawyers in the lawyer's law firm are also prohibited from representing the executor. Finally, additional limitations can arise if the lawyer, serving as executor, should or may be a witness in a probate or other legal proceeding related to the estate, which limitations may affect whether the lawyer can be both a fact witness and an advocate before a tribunal in the same proceeding.

Moral: Although this opinion authorizes the same person to serve as the executor and the attorney for the executor under proper circumstances, prudent practice would be, IMHO, to avoid dual roles.

Note: That moral is Prof. Beyer's, not mine. While I personally wouldn't serve as executor for persons other than family members and close friends, my "moral" would be that under "proper" circumstances, *i.e.*, where there appear to be no complications or disagreements related to the administration of an estate, a lawyer could serve in both roles, but that dual capacity should end at the **first** sign of any complication or disagreement.

17. A Little Lagniappe.

We are [mostly] happy to report the following developments critical to the future of Texas:

17.1 **"Goin' Up the Country."** In June, 2018, the Texas Legislative Council issued a report compiling definitions of "rural" found in Texas statutes and state agency rules. They found 46 of 'em, and included maps for 18 definitions. Notably, there's no reference to "rural" homesteads. Art. 16, Sec. 51, of the Texas Constitution does not use the term "rural." It refers to a homestead, "not in a town or city," of no more than 200 acres, and a homestead "in a city, town or village" of no more than 10 acres. And Prop. Code Sec. 41.002 uses the term "rural homestead" without defining what's "rural," although in all fairness, it does provide guidelines for what is considered an urban homestead. One *might* conclude that if it doesn't fit the definition of an urban homestead, it would be *rural*. (Also, it appears that the report was designed to address what's "rural" over larger geographic areas, hence the statewide maps.) If you're interested, you can find the report here:

https://tlc.texas.gov/docs/policy/Def_Rural_Statutes.pdf

17.2 **Lemonade, Anyone? HB 234** (Krause, *et al.* | Nelson, *et al.*) prevents local governments from enforcing any ordinance or rule that prohibits a *minor* from temporarily selling lemonade or other nonalcoholic beverages on private property (referred to in a [Dallas Morning News article](#) as "curbside speakeasies"). By the time the House version passed out of that chamber,

it also prohibited property owners' associations from adopting or enforcing similar restrictive covenants. According to Ken Herman of the Austin American-Statesman, in 2015 the police chief in Overton, Texas, shut down the lemonade stand of two sisters, ages 7 and 8, that they had set up to pay for a Father's Day trip to a water park. The chief relied on a state law covering homemade food that allows the sale of products such as candy, nuts (coated and uncoated), fruit butters and pies, popcorn, vinegar, pickles and mustard – but does not mention lemonade. This bill is so critically important that the House refused to concur in Senate amendments. (If you have access, [Ken Herman's story about the refusal](#) is worth reading!) But they eventually worked out their differences, so...

HB 234 was signed by the Governor on June 14th and is effective September 1st.

17.3 **“The Spirit of the Alamo [Still] Lives On.”** In 2017, I reported on **HB 1644** (Springer | Birdwell), a one-sentence bill that directed the Texas Veterans Commission to transfer the painting "The Spirit of the Alamo Lives On" by artist George Skyepek to the General Land Office. The background behind the bill was provided by a [March 13th column](#) that year by Austin American-Statesman reporter and columnist [Ken Herman](#). Mr. Skyepek, a military artist, donated the painting depicting Texas military history to the State of Texas in 2009, but it ended up in an eighth floor office of the Texas Veterans Board where there was little opportunity for the public to see it. The painting was transferred to the GLO so it could hang the painting in the publicly-accessible Medal of Honor hallway in the Capitol. In addition, the GLO planned to sell prints of the painting in the Capitol Gift Shop with proceeds benefiting the Texas Veterans Land Board (a division of the GLO). The artist/donor thought this was a grand idea!

In a [June 12th column this year](#), Herman informed us that on April 9th, the painting was finally unveiled on a moveable gallery wall next to the Medal of Honor hallway. This is just temporary; the permanent home has yet to be determined. This year's legislature commended the artist in **HCR 141** (Springer | Fallon), signed by the Governor on April 25th. And now you can order your very own 24" x 36" print (for the low, low price of \$20) from the [Map Store page](#) of the GLO's website.

17.4 **Repeal of Marihuana Laws!** Not really. **HB 1196** was introduced by Rep. Terry Meza, a former Spanish teacher who was irked by the fact that “marihuana” is misspelled many times throughout Texas statutes. But rather than correct those references to “mariijuana,” her bill would replace all the “marihuana”

references to “cannabis,” the plant's scientific name that she believes is less controversial. (The bill was left pending in committee.)

17.5 **Hook ‘Em vs. Gig ‘Em. HB 412** (Larson) requires UT and A&M to play a football game against each other on Thanksgiving weekend each year, beginning in 2020. If one of them refuses to do so, that university may not award any athletic scholarship funded by state funds the following year. (The bill failed to get a hearing.)

17.6 **Dangerous Wild Animals, Oh My! HB 1268** (Lucio, III) and **SB 641** (Huffman) generally prohibit the ownership, possession, sale, transfer, breeding, or custody or control of “dangerous wild animals.” They're listed in the statute, and neither longhorn steers nor rough collies appear on the list, so UT and A&M can breathe easy. However, bears and cougars are on the list (we're looking at you, Baylor and UH!). There are numerous exceptions to the prohibition, including a college or university that displayed a dangerous wild animal as a mascot before September 1, 2019, and does not allow direct contact between the public and the mascot. So there you go. (Neither bill passed.)

17.7 **What Time is It?** Here are the bills and resolutions relating to daylight savings time:

- **HB 3784** (Larson, *et al.*) and **HJR 117** (Larson, *et al.*) require a statewide referendum asking voters whether they prefer observing standard time year-round, or daylight saving time year-round. The voters' choice would then become law. Note that no provision is included authorizing the current practice of switching back and forth. (Both got through the House but neither got a Senate hearing.)
- **HB 49** (Larson) and **SB 190** (Menéndez, *et al.*) just stick with standard time year-round. No referendum. (Neither got a hearing.)
- **HJR 135** (Flynn) and **SJR 59** (Bettencourt) are a proposed constitutional amendment that would abolish daylight saving time. (Neither got a hearing.)

17.8 **One Plate or Two?** Here are a veritable potpourri of bills relating to license plates:

- **HB 666** and **HB 673** (King, K.) would have added “luxury passenger cars” (those with a base model MSRP of at least \$60,000) to the current list of vehicles (tractors, motorcycles, trailers, and semis) exempt from the requirement that a license plate be displayed on the front bumper. According to a Ken Herman column in the Austin American-

Statesman,²⁰ Rep. King's constituents who buy Corvettes "don't particularly want to drill a hole in their brand new car's bumper." King claims that Texas is unique in that most states don't require front license plates. While our neighboring states may have dropped the front-plate requirement, a majority (31 states) still require one. King denies this is "a rich people bill. Almost every car costs \$60,000 anymore, particularly a sports car." Herman points out that due to an unintentional 2011 change, while it's still illegal to drive without a front plate, there's no longer any penalty for it. (Neither got a hearing.)

- Or forget the minimum MSRP requirement. **HB 2149** (Shaheen) and **SB 805** (Fallon) do away with front license plates for all passenger cars and light trucks. (Neither got a hearing.)
- If those bills don't pass, perhaps **HB 688** (Guillen), which authorizes display of the front plate inside the windshield, will. (The bill didn't get out of committee.)
- Or we may enter the digital age. **HB 1711** (Paddie, *et al* | Paxton) authorizes the issuance of "digital license plates" A DLP (my acronym, not anyone else's) would be attached to the rear of the vehicle in lieu of two physical plates, and it could display the vehicle's registration insignia so you wouldn't need that messy little sticker inside your windshield. But wait, there's more! It could be used to collect tolls. It could display emergency alerts, factory recall notices, logos, or **advertising**. If only they would allow the vehicle owners to use the DLP to transmit "customized" messages to nearby drivers who aren't operating their vehicles the way the owner would prefer. Think of the possibilities... (While different versions passed both chambers, no conference committee report was produced.)
- Finally, **SB 1271** (Watson | Howard) neither changes the number of required plates nor changes the medium in which the plates are displayed. However, it directs the issuance of license plates that include the words "Keep Austin Weird." (The bill didn't get out of committee.)

17.9 Thank You For Your Service, Mr. Overton. I'm not sure how well-known Richard Overton was outside of Austin (and he wasn't all that well known in Austin for the first 100 years or so of his life), but he passed away on December 27, 2018, at the age of 112. At the time, he was the oldest living veteran of WWII and the third-oldest man in the world.

You can view a brief documentary of his life at <https://youtu.be/bYc5XNfnYNs>. In 2017, the Austin City Council renamed the portion of Hampton Avenue on which he'd lived for over 70 years Richard Overton Avenue. Now, **HB 1821** (Cole, *et al.* | Watson) designates the portion of Airport Blvd. in Austin between IH-35 and U.S. 183 as the Richard Overton Memorial Highway. (This is in addition to its current name of Airport Blvd., so residents and merchants won't need to change their addresses.)

HB 1821 was signed by the Governor on May 24th and is effective immediately.

17.10 The Texas Sovereignty Act. HB 1347 (Bell, C., *et al.*) is a repeat of 2017's **HB 2338** (Bell) and **SB 2015** (Creighton). It's a silly attempt to ignore the Supremacy Clause of the U.S. Constitution (**Article VI, Clause 2**). If you're interested in a further description of the bill, read about it in [my 2017 legislative update](#) in the attachment discussing bills that didn't pass. (This year's bill didn't get out of committee.)

17.11 Government Efficiency. These three filings seem to promote government efficiency, based upon their captions:

- **HB 4181** (Geren) relating to "the organization and efficient operation of the legislative branch of state government." **It was filed with the Secretary of State without the Governor's signature on June 14th and is effective immediately.**
- **SB 2287** (Fallon) relating to "the random drug testing of members of the legislature during a legislative session." (No penalties for a positive test other than posting the results on the Texas Ethics Commission's website. Also, the bill uses the old-fashioned spelling "marihuana." See Sec. 17.3 above.) (This bill didn't get a hearing.)
- **HJR 16** (Raymond) proposing "a constitutional amendment providing honesty in state taxation." (This amendment would prohibit the legislature's use of the terms fee, levy, surcharge, assessment, fine, penalty, or other charge of any kind, and instead would require all of those measures to be called a "tax.") (This bill didn't get out of committee.)

17.12 TBs and TLAs. No, "TB" doesn't refer to an ailment. **HR 901** (Bonnen, G.) would do away with House and Senate bills, joint resolutions, and concurrent resolutions in future sessions. Bills would be designated as "Texas Bill XXXX." Or T.B. for short. Similarly, joint resolutions and concurrent resolutions from either

²⁰ I often find inspiration for the bills described in this part of the paper in Herman's columns.

chamber would become T.J.R.s and T.C.R.s. Etc. Apparently, the purpose would be to eliminate the stigma or rivalry that may arise from being designated as coming from the House or Senate. But you'd still be able to tell from whence the filing originated by the number. In years when the general appropriations bill will originate from the House, filings from a Representative would receive an odd number (so filings from a Senator would receive an even number). In other years, things would be reversed. Even if this passed, it was dependent on a complementary resolution passing in the Senate. (This resolution didn't get out of the Calendars committee.)

But wait, there's more! **HCR 135** (Bonnen, G.) would have enrolled bills (*i.e.*, those that have passed both chambers in the same form) assigned a Texas Legislative Act number before being sent to the governor, and all future references would be only to "Texas Legislative Act XXXX." Or T.L.A. for short. (This resolution made it out of the House but didn't go anywhere in the Senate.)

17.13 **"I Like Beer!"** **HB 1083** (Raymond) would have exempted the sale of beer or ale from sales tax on July 4th. Stock up! (But it failed to get out of committee.) Meanwhile:

- **HB 469** (Springer) would have expanded the hours certain retailers may sell beer or wine on Sundays to include 10 am to noon. (It failed to get out of committee.)
- **HB 1100** (Raymond) would have allowed certain retailers to sell liquor between noon and 10 pm on Sundays, and between 9 am and 10 pm every other day of the week. (It failed to get a hearing.)
- **HB 1337** (Pacheco) would have allowed certain retailers to sell beer or wine on Sundays beginning at 7 am (like every other day of the week). (It failed to get a hearing.)
- **SB 785** (Johnson) would have eliminated holiday and Sunday sales restrictions for certain retailers, except that they may not sell liquor on more than six days during a week. (It failed to get out of committee.)

17.14 **Just Add Water!** **HB 1610** (Ashby) designates powdered alcohol as an illicit beverage, whether or not reconstituted. I didn't even know there was such a thing! (It failed to get out of committee.)

17.15 **Sit in the Driver's Seat.** **HB 3646** (Guillen) and **SB 2084** (Hinojosa) prohibit operating a motor vehicle while a person is occupying the trunk. Presumably not the driver. (By the way, a "trunk" is enclosed on all sides and accessible only by a door or lid. I think this would preserve the practice during my youth

of putting the kids in the "way-back" of a station wagon.) (Neither got a hearing.)

17.16 **Places.** Here are some official place designations:

- **Wine Capital.** **HCR 37** (Biedermann) designates Fredericksburg as the official Wine Capital of Texas, replacing its previous designation as the Polka Capital of Texas. (It failed to get a hearing.)
- **Pie Capital.** **SCR 18** (Campbell | Zwiener) designates Kyle as the official Pie Capital of Texas. (It failed to get a vote in the House.)
- **Hot Link Capital.** **HCR 122** (Hefner | Hughes) designates Pittsburg as the official Hot Link Capital of Texas. *It was signed by the Governor on May 24th.*
- **Film Hospitality Capital.** **HCR 131** (Cyrier) designates Bastrop County as the official Film Hospitality Capital of Texas. *It was signed by the Governor on May 28th.*
- **City of Mosaics.** **SCR 58** (Perry) designates Levelland as the official City of Mosaics of Texas. *It was signed by the Governor on June 10th.*
- **Mermaid Capital.** **HCR 176** (Zwiener) designates San Marcos as the official Mermaid Capital of Texas. (It failed to get a hearing.)

17.17 **Symbols.** Here are some official designations of state symbols:

- **State Food.** **HCR 57** (Hinojosa) designates tacos as the State Food of Texas. (This is sure to raise the hackles of the BBQ lobby!) (It failed to get a hearing.)
- **State Breakfast Item.** **HCR 123** (Klick) designates breakfast tacos as the State Breakfast Item of Texas. (It failed to get out of committee.)
- **State Pets.** **HCR 77** (Dominguez) designates rescue shelter cats and dogs as the official State Pets of Texas. (It failed to pass on the House floor.)
- **State Knife.** **HCR 86** (Springer | Fallon) designates the Bowie knife as the official State Knife of Texas. *To my great surprise, this was actually vetoed by the Governor on June 15th! In his veto statement, the Governor wrote:*

"This is the kind of resolution that a Texas Governor would sign without thinking. Fortunately, with a little thinking and study, it was learned that a statement contained in the resolution is factually incorrect: it identifies the location of Jim Bowie's "Sandbar Fight" as "near Natchez, Louisiana," when

in fact the fight occurred near Natchez, Mississippi. So, as a thinking Governor, I think it best not to sign a factually incorrect resolution and instead to allow the Legislature to consider this next session.”

17.18 **Dates.** Here are some official date designations:

- **Orange and Maroon Legislative Day.** **HR 123** (Raney) and **SR 97** (Watson, *et al.*) recognize February 5, 2019, as Orange and Maroon Legislative Day (*see* Sec. 17.5 above!)
- **Homemade Pie Day.** **HR 617** (Cain) recognizes February 16, 2019, as Texas Homemade Pie Day. (All Texans who bake their own pies and share them with their friends and loved ones are commended.)

- **Hard to Get Your Arms Around This?** **HCR 140** (Herrero) recognizes 2020 as “The Year to Embrace the Gulf.” It was signed by the Governor on June 7th.

17.19 **Mascots.** **HR 1535** (Geren) elects the children of House members to the office of mascot, and **HR 1536** (Geren) designates the grandchildren of House members as honorary mascots. (Each of the children and grandchildren is named in the respective resolution, and an official copy of the resolution is to be delivered to them.)

18. The End.

It’s been fun.

Selected Bills that DID NOT Pass

7. Decedents' Estates.

7.1 Electronic Wills Act (Ch. 259). HB 3848 (Longoria) would have adopted the Electronic Wills Act. Note that this was based on a then-current version of a uniform law in the process of being drafted by the Uniform Laws Commission. The ULC adopted the proposed uniform act in July of 2019, so this is likely to return in 2021. In the near future you'll be able to read up on the uniform act [here](#).

7.2 Actions Without Court Approval (Sec. 351.052). HB 2762 (Landgraf) would have added additional actions that may be taken by a dependent administrator without court approval, including hiring an accountant, bookkeeper, or other tax professional; a real estate agent; or an appraiser to assist with valuations. In addition, the administrator would have authority to pay all reasonable costs necessary to exercise their duty of care or related to any of the other powers listed in Sec. 351.052. These last two provisions go a long way towards gutting the court's supervisory role in dependent administrations, which is why both REPTL and the statutory probate judges opposed it. Its provisions were added to the REPTL bill on the House floor, but then removed by the committee substitute in Senate State Affairs.

7.3 Claims for Cost of Certain Electrical Service (Secs. 355.102 & 355.103). HB 3777 (Krause) would have added claims for the cost of electrical service if the decedent had been designated as a critical care residential customer to funeral expenses and expenses of last illness as Class 1 claims.

7.4 Finality of Foreclosures (Prop. Code Secs. 51.0001, 51.002, & 51.0022). HB 2069 (Wray) revises foreclosure procedures to deal with the problems arising from the possibility that the opening of an administration following a foreclosure might provide an avenue for avoiding the foreclosure sale. If the decedent's secured debt is in default, the mortgage servicer must provide notice send notice at least 45 days prior to the proposed foreclosure sale as follows:

- If there's a pending independent administration, to the independent executor at the last address shown for the executor in the probate proceedings.
- If the deceased debtor is the sole obligor, the servicer is **not** required to send a notice with an opportunity to cure.
- If no administration is pending, and the sale will take place before the fourth anniversary of the debtor's death, the notice should be sent to the debtor's surviving spouse, if any.

- If no administration was opened before the fourth anniversary, the servicer should address the notice to the deceased debtor and his or her "unknown heirs" (what about known heirs?), post the notice outside a main entry door if the property is a residence, send the notice by certified mail to the last known address of the person who most recently paid any installment on the debt, and file an affidavit with the county clerk stating the method used to provide notice.

The actual foreclosure sale may not take place before the 180th day following the debtor's death. If these notice rules are followed, then a subsequent administration of the debtor's estate (whether dependent or independent) won't affect the validity of the foreclosure sale.

7.5 Disclosure of Insurance Beneficiary to Funeral Director (Ins. Code Secs. 1103.201 & 1103.202). HB 2378 (Raymond) and **SB 2436** (West) required a company issuing a life insurance policy to disclose the beneficiary of the policy upon request of a funeral director directing the insured's funeral.

7.6 Expedited Death Certificate. HB 3957 (Turner) requires the Department of Health Services to establish a procedure to expedite the issuance of a death certificate if an authorized requestor demonstrates a need for religious purposes.

8. Guardianships and Persons With Disabilities.

8.1 Mediation and Termination of Guardianships Bill. SB 1783 (Zaffirini | Neave) contained provisions relating to mediation and termination of guardianships. The bill also contained provisions regarding initial venue of guardianships and transfer of guardianships to another county. *See* Sec.13.3 on page 34 for a discussion of those other provisions.

(a) Mediation (Secs. 1055.151-1055.153, 1101.001, 1101.052, 1201.053). A court may refer a guardianship to mediation at any time. The proposed ward's capacity may not be mediated and must still be proved to the court. Probate courts may also apply for grants to fund guardianship mediation projects or participate in national or state studies of the effects of mediation on promotion of least restrictive alternatives.

(b) Termination (Secs. 1202.001, 1202.231-1202.235). A court must terminate a guardianship when it finds that the ward's needs can be managed without a guardianship by an alternative or with supports and services. Detailed procedures for that determination are provided.

(c) **Mediation Training (Gov't Code Sec. 155.301).** The Office of Court Administration is directed to establish a 24 hour training course for use by approved dispute resolution training providers for those persons appointed to facilitate mediations.

(d) **No Liability (Sec. 1023.011).** A judge ordering a transfer to another county in compliance with the Estates Code has no liability for anything that may happen after the transfer. Similarly, the judge in the new county has no liability for anything that happened before the transfer.

8.2 **Parental Administration (Mostly New Ch. 1359).** **HB 4562** (Metcalf) hit my computer after midday on the last day for filing bills this session. The Word version of the bill as filed is 57 pages long. My eyes glazed over at the thought of preparing a description of such a lengthy bill in an area (guardianships) in which I no longer practice. But while the bill would have created a completely new type of fiduciary (called a "parental administrator"), after reading it, I decided it isn't that hard to describe for purposes of this paper.

(a) **A Few Definitions.** New Ch. 1359 is titled "Parental Administration." For purposes of the chapter, an "incapacitated adult" means an incapacitated person who is an adult. "Parent" has the same meaning as for guardianship purposes, except that it also includes a person appointed conservator of a child under the Family Code. "Parental administrator" means a person appointed under this chapter, and "proposed incapacitated adult" has a meaning essentially equivalent to a "proposed ward" in a guardianship proceeding.

(b) **Parallel Provisions.** Rather than detailing all of the provisions of the new chapter, I think it's safe to say that it essentially creates a new type of fiduciary with similar procedures as are applicable to a guardianship, and mostly with respect to a guardianship of the person. Those parallel provisions comprise most of the bill.

(c) **Differences.** Here are some of the differences between a guardianship and a parental administration:

- A parental administrator must be a parent (or conservator under the Family Code) of the proposed incapacitated adult.
- The court must find "that the proposed incapacitated adult lacks the capacity to do some, **but not all**, of the tasks necessary to care for himself or herself or to manage his or her property with or without supports and services."

- The powers that a court may grant to a parental administrator (and the reason I analogize a parental administration to a guardianship of the person) include:

- (A) the right to have physical possession of the incapacitated adult and to establish the incapacitated adult's legal domicile;
- (B) the duty to provide care, supervision, and protection for the incapacitated adult;
- (C) the duty to provide the incapacitated adult with clothing, food, medical care, and shelter;
- (D) the power to consent to medical, psychiatric, and surgical treatment of the incapacitated adult;
- (E) the power to establish a [special needs] trust ... and direct that the income of the incapacitated adult ... be paid directly to the trust ...;
- (F) the power to sign documents necessary or appropriate to facilitate employment of the incapacitated adult;
- (G) the power to receive funds for the incapacitated adult from a government source;
- (H) the power to obtain insurance and communicate with insurance issuers on behalf of the incapacitated adult;
- (I) the power to file suit on behalf of the incapacitated adult; and
- (J) other powers as determined necessary by the court.

- Significantly, while an incapacitated adult must be an incapacitated person as defined for guardianship purposes, **an incapacitated adult retains all legal and civil rights and powers.** The powers of the parental administrator are subordinate to those of the incapacitated adult.

- Therefore, the order appointing a parental administrator **may not remove** the rights of the incapacitated adult nor grant a power to the parental administrator to manage the incapacitated adult's property or financial affairs beyond the powers specifically authorized above.

8.3 **Task Forces Concerning Persons With Disabilities.** Several bills would have established task forces concerning persons with disabilities. These didn't pass (see Sec. 8.7 on page 15 for one that did):

(a) **Appropriate Care Settings.** **SB 47** (Zaffirini) would establish a task force to assist in developing a comprehensive, effectively working plan to ensure appropriate care settings for persons with disabilities.

(b) **Access to Legal Services.** **HB 4462** (Meza, *et al.*) would establish a task force to study access to legal services for persons with disabilities.

8.4 Use of Person First Respectful Language.

Several bills would have furthered the goal of Gov't Code Ch. 392 "to establish preferred terms and phrases for new and revised laws by requiring the use of language that places the person before the disability." These didn't pass (see Sec. 8.8 on page 15 for those that did):

- **SB 1768** (Zaffirini) directs Leg. Council and other state agencies to avoid the term "ward" in any new legislation and to replace, as appropriate, any existing term as that law is amended with the following preferred terms: "person," "incapacitated person," and "person with a guardian." The definitions of "incapacitated person" and "supports and services" are revised, a definition of "community-based informal and formal resources and assistance" is added, and if an alleged incapacitated person expresses a desire to oppose a guardianship, directs the attorney ad litem to advocate zealously on the person's behalf and seek alternatives to guardianship or supports and services to avoid a guardianship.
- **HB 2890** (Johnson, Julie) encourages avoidance of the phrases "admission, review, and dismissal committee" or "ARD committee" and the use of the phrases "individualized education program team" or "IEP team."

Drafting Tip

While there's certainly no requirement that you follow the same guidelines in the documents you prepare, it certainly wouldn't hurt.

8.5 Investigations of Abuse of Elderly or Person With Disability (Hum. Res. Code Secs. 48.002 & 48.151).

The Department of Family & Protective Services already has the ability to investigate claims of abuse of an elderly person or a person with a disability by the person's caretaker, family member, or other individual who has an ongoing relationship with the person. **HB 3774** (Davis, Y.) would have eliminated the requirement that the "other individual" have an ongoing relationship with the person.

8.6 Referral of Alleged Incapacitated Person by DFPS to Probate Court (Hum. Res. Code Sec. 48.209).

DFPS may refer individuals who may be appropriate for a court-initiated guardianship to a probate court. **HB 3572** (Meza) would have required DFPS to first investigate the individual's condition and circumstances to determine whether an alternative to guardianship is available. The DFPS must prepare a report after the investigation and provide a copy of the report to the court.

8.7 Property Tax Exemption. HB 160 (Raymond) and **HJR 19** (Raymond) would have extended the \$10,000 property tax exemption currently available to individuals who are disabled or 65 or over to the parent or guardian of a minor who is disabled and resides with the parent or guardian. **HB 322** (Geren) and **HJR 26** (Geren) would have extended the limitation of annual property tax valuation increases currently available to individuals who are disabled or elderly and their surviving spouses beyond school districts to other taxing units.

8.8 Possession of Firearm by Certain Persons. HB 544 (Nevárez) would have made it a misdemeanor for a person to possess a firearm while subject to any of the following judicial determinations: court-ordered inpatient mental health services, acquittal of crime by reason of insanity, determination to be an individual with an intellectual disability and committed for long-term placement, guardian appointment based on lack of mental capacity, or determination to be incompetent to stand trial. **SB 1945** (Watson) would have allowed a judge to issue an order prohibiting a proposed patient ordered to receive outpatient mental health services from owning, possessing, or purchasing a firearm for 90 days if the court finds by clear and convincing evidence that proposed patient's possession of a firearm would present a substantial risk of serious harm to the proposed patient's self or to others.

8.9 Financial Abuse of Elderly. HB 977 (Thierry) and **SB 2279** (West) would have created an offense if a person knowingly engages in financial abuse of an elderly individual, including the financial exploitation by a person who has a relationship of confidence or trust with the elderly individual (such as breach of a fiduciary duty under a power of attorney).

8.10 Abuse or Exploitation of Elderly or Person With Disability. HB 4476 (Davis, Y.) would have made a person liable for damages, including mental anguish, punitive damages, and attorney's fees, for abuse or exploitation of an elderly person or person with a disability.

8.11 Mental Health Public Defenders. SB 1293 (Zaffirini, *et al.* | Hinojosa) would have allows counties with a population in excess of 800,000 to employ attorneys as mental health public defenders in proceedings for court-ordered mental health services. If the county employs a public defender other than a mental health public defender assigned to a court with primary responsibility for mental illness proceedings, the court must appoint that public defender to represent a proposed patient in a commitment proceeding unless the court enters into the record the reason the court is unable to appoint that public defender.

8.12 **Abandoning Elder or Disabled Individual.** **HB 2874** (Davis, Y.) would have expanded the current criminal offense of abandoning a child to include abandonment of an elderly or disabled individual.

8.13 **Applicability of Death Penalty to Person With Intellectual Disabilities.** **HB 1139** (Thompson, S., *et al.* | Miles, *et al.*) would have prohibited sentencing a person with an intellectual disability to the death penalty. While different versions passed both chambers, no conference committee report was produced.

9. Trusts.

9.1 **300-Year RAP (Sec. 112.036).** **HB 3744** (Burrows) would have attempted to modify the statutory rule against perpetuities to a fixed 300-year time limit measured from the “effective date” of the trust. The “effective date” is not defined (*e.g.*, when created? when irrevocable?). It would apply to trusts with an effective date on or after September 1, 2019, and to trusts with an earlier date if the trust instrument provides that interests vest under the statutory provision applicable to trusts on the date the interest vests (which seems a bit circular).

This year’s bill appears identical to 2017’s **HB 2842** (Burrows), which never emerged from committee. I raised the question at the time whether a statutory change would pass constitutional muster. I wrote “attempted” above on purpose because it’s not clear to me that our constitutional prohibition against “perpetuities” would allow the legislature to so dramatically extend the common law perpetuities period. If you’re interested, see the discussion in the Special Supplement on the Delaware Tax Trap in [2017’s legislative update](#).

I believe this is a complete list of all attempts to modify Sec. 112.036:

- 1999’s **HB 1553** (repeal of statutory RAP)
- 2001’s **HB 1608** and **SB 698** (RAP doesn’t apply to trusts but interests in trusts must vest within 1,000 years)
- 2003’s **HB 2239** and **SB 534** (same as 2001 bills)
- 2005’s **HB 2561** (RAP doesn’t apply to trusts)
- 2009’s **HB 990** (200-year RAP)
- 2011’s **HB 372** and **SB 261** (same as 2009 bill)
- 2013’s **HB 2189** (500-year RAP)
- 2017’s **HB 2842** (300-year RAP)
- 2019’s **HB 3744** (same as 2017 bill)

10. Disability Documents.

10.1 **The REPTL Medical Power of Attorney Bill (Health & Saf. Code Secs. 166.152, 166.160 & 166.164).** REPTL’s Medical Power of Attorney bill was **SB 310** (Rodríguez). It would have made the statutory form of medical power of attorney optional, so people

who want to can use other forms, such as the [Five Wishes](#) document, the [ABA’s simple form](#), or some other form as a standalone document. To be valid, a medical power must:

- be in writing;
- be signed by the principal (or another person at the principal’s express direction) before two witnesses or a notary; and
- contain the principal’s name, date of execution, and designation of an agent.

In order to make this more palatable to the Texas Medical Association and the Texas Hospital Association, both of which opposed this change in 2017, an attending physician, health or residential care provider, or agent of either will not be considered to have engaged in unprofessional conduct for assuming that a medical power was valid when made so long as they have no actual knowledge to the contrary. This time around, the Health Law Section of the State Bar adopted the objections expressed previously by TMA and THA. REPTL reached a compromise with the Health Law Section in the form of new Sec. 166.152(b). The new provision first provides that that if two or more agents are named to act concurrently, unless the medical power provides otherwise, the agents will have authority to act as sole agent in the order in which their names are listed. If two or more agents are acting and cannot agree on a treatment decision in the manner provided in the medical power, again, they’ll have authority to act as sole agent in the order in which their names are listed. In that case, they may continue to act in the manner provided in the medical power on matters on which they agree. In exchange for this addition, the rest of the changes in REPTL’s proposal remained intact, including making the statutory form optional, rather than mandatory.

However, after the bill was filed, THA indicated that the compromise still did not satisfy its concerns. As noted in Sec. 10.2 on page on page 17 above, Texas appears to be one of only five states that mandate use of a state form. *See also* Section 10.3 below

10.2 **The REPTL Anatomical Gift Bill (Health & Saf. Code Ch. 692 & Secs. 692A.005-007).** REPTL’s Anatomical Gift bill was **HB 2247** (Wray) and **SB 258** (Rodríguez). It would have allowed a statement of anatomical gift, a revocation of same, or a refusal to make an anatomical gift to be acknowledged in the presence of a notary instead of two witnesses. Despite lack of any apparent opposition, it failed to get a vote on the House floor in time to pass. In the meantime, see the Drafting Tip on page 17.

10.3 **Creditor’s Duty to Notify Agent (Secs. 751.231 & 751.251).** **SB 763** (Menéndez) had a relatively narrow scope. If a principal who is at least 65

is delinquent under an agreement relating to the principal's living quarters, **and** the creditor knows that the principal has given a power of attorney to an agent that would allow the agent to make the delinquent payment, then before the creditor takes adverse action against the principal (like eviction proceedings), the creditor must submit a written request to the agent by certified mail. If the delinquency remains after 30 days, the creditor must bring an action requesting a court to review the agent's conduct. Further actions by the creditor that are adverse to the principal are delayed until the court takes appropriate action.

10.4 Form of Advance Directive (Health & Saf. Code Secs. 166.032, 166.0325, 166.036, 166.102, & 166.163). **HB 1082** (Raymond) and **SB 1786** (Zaffirini) would not have made the statutory medical power form optional, but they did allow the executive commissioner of the Department of State Health Services to designate alternate allowable forms. A designated alternate form must:

- 1 be promulgated by a national nonprofit;
- 2 be written in plain language;
- 3 allow a declarant to provide health care instructions;
- 4 require a declarant to name an adult agent;
- 5 allow a declarant to name an alternate adult agent;
- 6 allow the declarant to specify or limit treatment decisions an agent may make;
- 7 allow the declarant to specify treatments he or she approves (or doesn't);
- 8 allow the declarant to specify personal, spiritual, and emotional care he or she approves (or doesn't);
- 9 allow the declarant to detail information to be conveyed to family members and friends, including wishes for a memorial service or burial;
- 10 require the declarant to sign and date the directive before two witnesses; and
- 11 be accepted as valid in at least 40 other states.

Based on the required criteria, this sounds like a bill advanced by Aging with Dignity, the nonprofit that promulgates the **Five Wishes** document.

10.5 Anatomical Gifts. **SB 517** (Zaffirini) would have required a person issuing a motor vehicle registration to specifically ask each applicant "Would you like to register as an organ donor?" If yes, the issuer must forward the applicant's information to the statewide donor registry. See Sec. 10.5 on page 18 for a discussion of similar bills that did pass.

10.6 The Respecting Texas Patients' Right to Life Act of 2019 (Health & Saf. Code Sec. 166.0465). As initially filed, **HB 3158** (Raymond) and **SB 2089** (Hughes) appeared to be another attempt to pass what was called the Texas Patient Autonomy Restoration Act of 2017 two years ago (**HB 4090** (Klick) and **SB 1213**

(Hughes, *et al.*)). This year, it was renamed the Respecting Texas Patients' Right to Life Act of 2019. However, as the session progressed, the scope of the bill was significantly narrowed, and by the time **SB 2089** (Hughes, *et al.* | Raymond, *et al.*) emerged from House State Affairs, it lost its title and all of the rest of its original language. Instead, it incorporated the language from **HB 3743** (Coleman) and **SB 2355** (Lucio) that merely requires ethics or medical review committees to adopt conflict of interest policies "preventing substantial financial and health care professional conflicts of interest that may arise during the review; and ... prohibiting consideration of a patient's permanent physical or mental disability during the review unless the disability is relevant in determining whether a medical or surgical intervention is medically appropriate." Yet despite these changes, the bill failed to get a vote on the House floor.

10.7 Texas Health Care Right of Conscience Act (Health & Saf. Code Secs. 161.701-161-708). **HB 2892** (Oliverson) and **SB 1107** (Kolkhorst) would have allow a person to refuse to be involved in any way with a health care treatment contrary to that person's conscience. However, it doesn't apply to life-sustaining treatment subject to Ch. 166, nor a decision made by an agent under a medical power of attorney.

10.8 Other Bills Relating to Directives to Physicians. There were a number of bills relating to directives to physicians and family or surrogates.

(a) Advance Directive and DNR of Pregnant Patient (Health & Saf. Code Secs. 166.033, 166.049, 166.083, & 166.098). **HB 1071** (Hinojosa) would allow a woman of child-bearing age to make her own decision regarding the effect of pregnancy on a decision regarding life-sustaining treatment, and makes conforming amendments to the statutory forms.

(b) Limits on Refusal to Honor Patient's Wish for Life-Sustaining Treatment (Health & Saf. Code Ch. 166). **HB 3369** (Parker) and **SB 2129** (Creighton) make a number of changes throughout Ch. 166. Essentially, they prohibit physicians, health care facilities, and ethics committees from refusing to honor a patient's directive to provide life-sustaining treatment based on:

- the lesser value the physician, facility, or committee places on sustaining the life of an elderly, disabled, or terminally ill patient compared to the value of sustaining the life of a patient who is younger, not disabled, nor terminally ill;
- a disagreement between the physician, facility, or committee and the patient over the greater weight the patient places on sustaining the patient's life than the risk of disability; or

- the patient’s financial condition.

10.9 **Anatomical Gifts.** Here are several bills related to anatomical gifts that didn’t pass:

- **HB 609** (Thierry) would have changed the procedures for an applicant for a driver’s license or personal identification certificate. Currently, the applicant is asked “Would you like to register as an organ donor?” If yes, the applicant’s information is forwarded to the statewide donor registry. This bill changes the question for adult applicants to “Would you like to *refuse* inclusion in an organ donor registry?” If no, the applicant’s information is forwarded.
- **HB 1350** (Oliverson) would have prohibited the hospital administrator, a person who exhibited special care and concern for the decedent and is associated with the hospital in possession of the decedent’s body, and any other person having the authority to dispose of the decedent’s body from making an anatomical gift. Nor may a procurement organization or any person associated with the hospital in possession of the decedent’s body acting as a guardian make an anatomical gift.
- **HB 3874** (Sheffield) would have directed the DSHS to publish information on its website on the steps necessary to be placed on the national waiting list for organ transplants.

10.10 **Treatment Contrary to Declaration for Mental Health Treatment (Civ. Prac. & Rem. Code Sec. 137.008).** **HB 3666** (Murr) limits a health care provider’s ability to subject a principal to treatment contrary to wishes expressed in a declaration for mental health treatment only following a **judicial determination** that the principal was mentally incompetent at the time the declaration was executed.

13. Jurisdiction and Venue.

13.1 **Jurisdiction of Contested Matters in Counties Without Statutory Court (Sec. 32.003).** Sec. 32.003 provides that if a contested matter arises in a county without a statutory probate court or county court at law, the county judge or any party may file a motion for the assignment of a statutory probate judge to the contested matter or to transfer the contested matter to a district court. Currently, if a party files a motion for assignment of a statutory probate judge before the contested matter is transferred to a district court, the judge must grant the motion. **HB 2928** (King, P.) would have required that the motion be “timely” filed (unless all parties agree to the motion). “Timely” means within 10 days of a matter being contested. If more than one party files a motion, the judge may grant or deny either, with or without a hearing, as the judge considers

appropriate. The county judge, but no longer a party, may request that the entire proceeding be transferred.

13.2 **Venue for Probate of Wills (Sec. 33.1011).** **SB 192** (Perry | Murr) would have authorized transfer of a probate proceeding to the county of the executor’s residence after issuance of letters if no immediate family member resides in the county of the decedent’s residence. (This is in addition to the current grounds for transfer for the convenience of the estate under Sec. 33.103.)

13.3 **Venue and Transfer of Guardianships.** **SB 1783** (Zaffirini | Neave) mostly addressed venue and transfers of guardianships.

(a) **Venue (Sec. 1023.001).** The permissive venue in the county in which the proposed ward’s principal estate is located would only apply in a proceeding for the appointment of a guardian of the estate, not the person.

(b) **Transfer (Sec. 1023.005).** The court must grant a motion to transfer a guardianship to another county if it appears to be in the ward’s best interests and the ward has resided in that other county for at least six months. In determining the ward’s best interests, the court may consider the interests of justice; the convenience of the parties; and the preference of a ward who is at least 12 years of age.

(c) **Effect of Transfer (Sec. 1023.008).** Once a guardianship is transferred, the transferee court becomes the court of continuing exclusive jurisdiction, proceedings commenced in the original county continue in the new county, judgments rendered in the original county have the same effect in the new county, and the original court retains no jurisdiction over the ward or authority to enforce any orders.

(d) **No Liability (Sec. 1023.011).** A judge ordering a transfer to another county in compliance with the Estates Code has no liability for anything that may happen after the transfer. Similarly, the judge in the new county has no liability for anything that happened before the transfer.

14. Court Administration.

14.1 **Payment of Costs Associated with Assigned Statutory Probate Judge (Sec. 352.054; Gov’t Code Sec. 25.0022).** **HB 3267** (Murr) is similar to 2017’s **HB 1744** (Murr | Perry). The 2019 version would have provided that if a party to a contested probate proceeding requests the assignment of a statutory probate judge under Est. Code Sec. 32.003, the court, on its own motion, or on the motion of the party requesting the assignment, may order that the county be reimbursed for the costs of the assignment out of the

estate. The county may seek reimbursement from one or more of the parties as apportioned by the judge. If the judge does not order that the county be reimbursed from the estate, the county can seek reimbursement from the party requesting the assignment. If more than one party requested the assignment, then the judge must apportion the costs among those parties.

As I pointed out in 2017, setting aside situations where parties agree to hire a “private judge,” I am not aware of any other situation under Texas law where a party is required to pay for a judge.

14.2 State Contribution for Statutory Probate Judges (Gov’t Code Sec. 25.00211). **HB 586** (Thompson, S.) would have changed the state’s annual contribution towards a statutory probate judge’s compensation from a flat \$40,000 to 60% of a district court judge’s salary, but only if the judge does not engage in a private law practice. **HB 1624** (Thompson, S.) is the same, but would have omitted the requirement that the judge not have a private practice.

14.3 Bar Card Access to Courthouses (Gov’t Code Secs. 75.601 & 81.117; Local Gov’t Code Sec. 291.010). **HB 1359** (Wu) would have allowed attorneys to skip the security entrance at courthouses by presenting their “attorney’s security services identification card.” This would be a new photo ID card attorneys could obtain from the State Bar that would require a background check. Counties and municipalities may not adopt or enforce rules that conflict with this provision. This applies to buildings that house a justice court, municipal court, county court, county court at law, or district court. So it doesn’t apply to appellate courts. But what about buildings that house only statutory probate courts? (See Sec. 14.7 above.)

15. Selected Marital Issues.

15.1 Divorce. Here are some other bills relating to divorce that didn’t pass:

- **HB 922** (Krause) would have required both spouses to agree in order for the court to grant a divorce on the grounds of insupportability.
- **HB 926** (Krause) would have extended the waiting period for a divorce granted on the grounds of insupportability if the household includes a minor child, an 18-year old child in high school, or an adult disabled child.

15.2 Same-Sex Marriages and Conduct. Here are some bills relating to same-sex marriage and conduct that didn’t pass:

- **SB 114** (Menéndez) would have repealed statutes regarding the criminality or unacceptability of homosexual conduct and statutes that don’t recognize certain same-sex relationship statuses.
- **SB 153** (Rodríguez) would have amended certain Family Code and Health & Safety Code provisions to recognize same-sex relationships. It also repeals a Penal Code statute making homosexual relations illegal.
- **HJR 64** (Beckley) and **SJR 9** (Rodríguez) were a proposed constitutional amendment that repeals the constitutional ban on same-sex marriages and the prohibition against creating or recognizing any legal status identical or similar to marriage.
- **HB 978** (Beckley) began by adding new Fam. Code Sec. 1.0015 directing that gender-specific terminology be construed in a neutral manner to implement the rights and duties of spouse or parents in a same-sex marriage. It then makes a number of changes to specific statutes to implement that goal. It also repeals Penal Code Sec. 21.06 which criminalizes homosexual conduct (the statute was ruled unconstitutional by the U.S. Supreme Court in 2003¹ but has never been taken off the books in Texas.
- **HB 2109** (Flynn) and **SB 1009** (Birdwell) would have allowed a person authorized to conduct a marriage ceremony to recuse himself or herself from doing so (without liability) if the recusal is based on the person’s sincerely held religious belief or conscientious objection.

15.3 Persons Conducting Marriage Ceremonies. **HB 1572** (Moody) would have added criminal law magistrates to the list of judges authorized to conduct marriage ceremonies.

16. Stuff That Doesn’t Fit Elsewhere.

16.1 Abeyance of Grievance Proceedings. **SB 1199** (Miles) would have allowed a grievance committee to hold a complaint in abeyance pending a settlement agreement between the complainant and the responding attorney. After the settlement, the complaint would continue in abeyance until the attorney fully satisfies the settlement conditions of the. At that point, the grievance committee may dismiss the complaint.

16.2 Fraudulent Securing of Document Execution. **SB 2115** (West) would have created a criminal offense if a person, with intent to defraud, by deception, or without consent, causes another person to

¹ See *Lawrence v. Texas*, 123 S.Ct. 2472, 539 U.S. 558 (2003)

sign or execute a document affecting property, a service, or the pecuniary interest of a person.

WHERE ARE ALL THE REST OF THE ATTACHMENTS?

As noted in Sec. 1.5 on page 1, in previous legislative updates, I eventually added attachments that included the actual language of bills marked to show what had been added or deleted. However, due to the length of those attachments, and in an effort to be green (for anyone getting a hard copy), I've posted a separate supplement that contains all of that statutory language – or at least the language I deem worthy to include. You may download it by pointing your browser to:

www.snpalaw.com/resources/2019LegislativeSupplement

Down the road, I'll update it in to add session law chapter numbers to the acts (and to correct any errors that I find or are pointed out to me).
