Skyline Medication Management Service

At Skyline Pharmacy we are committed to helping you take care of yourself and your family. We are pleased to offer a medication management service designed to help you maximize the positive benefits of your medication therapy as well as save you time and money.

The Skyline Medication Management Service benefits include:

- *You will have a working knowledge of every medication you are taking.
- *Your maintenance medication refills will be coordinated so they are prepared on the same day once every month.
- *Never worry about making multiple trips to the pharmacy ever again!
- *You can take advantage of this service for FREE!

Skyline Medication Management

HOW DOES IT WORK?

Simply fill out the attached form with the medications that you would like filled once every month. We will contact your doctor in advance when necessary so everything can be picked up once a month. Once we have you set up, the only thing you must do is to let us know when something is to be added to or removed from your list. Due to state and federal laws, once medications leave the pharmacy they are unable to be returned. Therefore, it will be your responsibility to call and let us know when your doctor makes changes with your medications.

WHY JOIN?

At Skyline Pharmacy we want to be your partner in your healthcare. We also understand that you're busy and making multiple trips to the pharmacy each month can be very time consuming. We will work with you and your doctor to help you save time and money by coordinating all of your maintenance medication so you can pick them up on the same day every month. Please come in and talk with us about this exciting new service!

Additional Service

BLISTER PACKAGING

Do you have a hard time remembering the last time you took your medications? Do you have an elderly relative who gets confused about what his medications are for? LET US HELP!

Blister packaging is a process in which prescriptions are sealed between a cardboard backing and a plastic bubble sheet. Each blister pack card holds seven days of medication and is labeled with the time of day a medication is to be taken, an imprint description of what each medication looks like and what the medication is used for. Blister packaging benefits include: better compliance, convenience, and safety.

Morning	Impring on Pills	Indication
