<p>Rain washed a lot of the pollen out of the air. Looks like the season for trees are just about over. It is now Mold the causative agent, soon Grasses will begin. Still in my opinion counts greater than 250 -500 can cause symptoms - Jerry</p>	
<p>This year the pollen station has been relocated to the hills north of Fairbanks. Due to elevation, there may a slight variation in onset and general counts if compared to previous years. TVC Pollen Counts performed by Susan K. Harry, M.T., Certified Pollen Counter. Please call 907-459-3519 for the latest recorded pollen announcements</p>
