

GoGrant Recipient Spotlight: **General Marshall Middle School**

General Marshall Middle School's goal: to create a joyful environment where teaching and learning is fun! We are equity-minded and believe social emotional learning should be ongoing in ALL classrooms for ALL students.

In 2023, with the support of GoGrant funding: The school is piloting a bike-to-school support program called Wednesdays on Wheels and sought to increase the number of student riders participating as well as help students participate in an afterschool bike club to teach bike care, safety and safe routes around their neighborhoods and the city of Austin. With GoGrant funding, the school is offering an incentive program to reward students who participate in various bike-related activities like biking to school, participating in bike club, and participating in community rides.
