

Manan Garg, MSCE

Senior Vice President (Delivery and Construction)

Austin Transit Partnership | Project Connect

Manan is the Senior Vice President of Delivery and Construction leading Austin's Light Rail Transit project delivery and construction for the Austin Transit Partnership (ATP). Before joining ATP in July 2021, Manan served as BART's Chief Design & Construction Officer for VTA's Phase 2 BART extension to Silicon Valley (San Jose) project.

Manan has over two decades of experience in successfully delivering Public Infrastructure and Mega transit programs such as 2nd Ave Phase 1 with MTACC and BART Silicon Valley extension Phase 1. His experiences include working with MTA Capital Construction Company (MTACC), New York City Transit Authority (NYCTA), and BART. Manan's leadership and expertise is being applied to Austin's greenfield Light Rail Project, managing all aspects of the delivery cycle from Preliminary Engineering, program and construction management, costing, alternate project delivery and community relations.
