

Valli Technical Data Sheet

Site Location: Alexandra, Blackridge Vineyards Vines planted: 1980

Rainfall: 450mm Growing Degree days: approx 1200

Soils: Schist rock

Date of Harvest: 28-4-2007

Yield: 4T/Ha

Brix: 23.4

Fermentation: Stainless Steel @ 11-15c

Fining: light isinglass. Filtering: .45 micron

Alcohol: 13%

PH 3.04

T.A. 7.24

Total Production 280 cases

Giuseppe Valli emigrated from an Italian winemaking background to New Zealand in the 1870s. Four generations later his great-grandsons Grant Taylor and Tim Valli continue the tradition.

Sincere thanks to my friends Sue and Verdun at Black Ridge for sharing the fruits of their labour. Their vision and sense of adventure in the early 1980s has resulted in a block of 25-year-old Riesling vines from which I have produced my favourite white variety. As vines age and their roots go deeper they produce wines of increased depth and complexity. As growers age, they gain experience, understanding, and knowledge of how to bring out the best in their vines and site. This wine is truly an expression of people, place, and vine age.
