

# JIFFY LUBE SOLAR CASE STUDY: COMMERCIAL

“

Alternative Energy Systems provided me with a choice of three systems and I was able to pick the one I felt met our needs. The people I dealt with from AES were all very polite, professional and very helpful. Each person I was in contact with explained in detail what was going to take place as we progressed toward the completion of the system. The communication between AES and myself was good. I was very pleased that the cost of the project was given up front with no surprises at the end.

**Dick Guynn, Owner, Jiffy Lube on Notre Dame**

PROJECT:

- Solar provides power to Jiffy Lube on Notre Dame in Chico, CA
- Solar system size is 7.85 kW
- First year energy savings: \$2,562
- 5 year payback
- Internal rate of return approximately 28%
- Performance software tracks and measures system production and performance
- 20 year warranty from AES
