

# Why Consider Compounded Medications?

**Compounding allows  
your doctor to  
customize medications  
to meet your needs**

- Prescribe a specific dose
- Choose the best delivery method: capsules, nasal sprays, topical creams, suppositories, liquids and suspensions, chewables and lollipops
- Flavored medications
- Specify medications free of sugars, dyes, alcohol, gluten, wheat, soy, preservatives and other allergens
- Prescribe commercially unavailable medications
