

I am writing this endorsement for David Lysengen's candidacy as an LCPOA Director. Being on the Board myself, I can say with confidence that David will make an excellent addition. I am certain he will immediately begin shouldering the load while taking on the responsibilities of his position. He will no doubt provide wise counsel to the Board, drawing from his past work experience. I have talked to David regarding his position on the Governing Documents Committee and was impressed with his careful consideration of the complex issues.

It is my belief that David's work and life experiences have prepared him to efficiently transition into the role of an LCPOA Director. Please vote for David Lysengen for the LCPOA Board. We need his talents, thoughtful perspective and willingness to accept responsibility.

Roy Paulson
President, LCPOA Board of Directors
