

I have had the pleasure of working with David Lysengen on the Governing Documents Committee, and I have come to know him as an exceptionally sharp, thoughtful, and capable individual.

David has demonstrated a remarkable ability to absorb new information, quickly understand complex issues, and recognize the legal ramifications of the language we are developing for our governing documents. He is quick-witted and thoughtful, and while he tends to be somewhat reserved, **when David speaks, he speaks with authority and substance.** He has brought significant talent and perspective to the committee.

David has also made a strong commitment to understanding the broader issues facing the La Cresta Property Owners Association. He has attended nearly every Board of Directors open-session meeting, if not all of them, and his consistent presence has given him a well-informed and comprehensive understanding of the challenges and issues facing our community.

Having spent a year on our Governing Documents committee which often met multiple times a month, David has an exceptional understanding of the rules and regulations that govern our Association. This, coupled with attending essentially every LCPOA board meeting over the past couple of years gives David a huge leg up to step into a Director's position.

It is my sincere pleasure to endorse David Lysengen for the Board of Directors. I believe he brings intelligence, sound judgment, a willingness to learn, and a genuine commitment to the community.

I am confident that, if elected, David will bring meaningful value and strong leadership to the LCPOA Board.

Sincerely,

David Boyd

Vice President

La Cresta Property Owners Association
