

MULTI ITEM WAITLIST REQUESTS

Allow fans to select multiple ticket types within one waitlist request

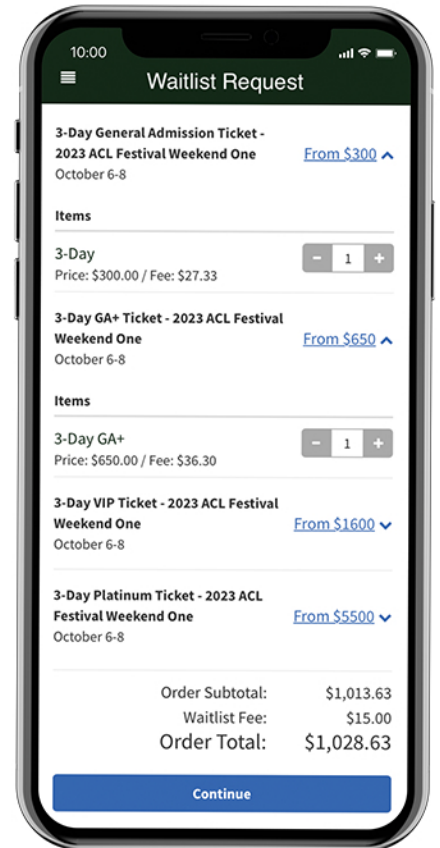

Help your fans create their dream festival experience without the stress of an on sale.

Our redesigned waitlist path gives the fans option to select any combination of available ticket types in a single waitlist request. This will help eliminate questions from your fans along with keeping call center times to a minimum.

Enable the SMS opt in checkbox for future outreach direct from your festival brand to your fans.

You can approve requests easier with the new Bulk Waitlist Request Approval tool in Backstage. This is now compatible with both Multi Item and Single Item requests.

Talk to your Front Gate Tickets sales representative today about making the most out of your Waitlist.

Sell More

Reduce fan hesitancy and gain qualified fans for future inventory decisions.

Demand

Gauge demand on future festivals and lineups pre and post sell out.

Fan Experience
