

As a patient of Homer Drugs, here are just a few of the benefits you can enjoy:

### **Saving You Money:**

- Our **Homer Drugs Loyalty program** is free! When you enroll in our loyalty program you are eligible for the very best cash price on all your prescriptions. Our cash price is very competitive with the prices you'll find at the large chain stores.
- We provide **free multivitamins** to all primary and elementary school children.
- We provide **free prenatal vitamins** to all our expecting mothers.

### **Helping you manage your Health Care Needs:**

- Our **SYNC Rx** program enables you to pick up all your medications in one monthly stop to the pharmacy. Eliminate those extra trips!
- If you are on 4 or more medications, we can **package your medications** in unique blister packs at no additional cost. These blister packs organize your medications by time of day they are due. When it's time to take your medications, simply tear off the blister for that time. Inside that blister are ALL medications due at that time. No more confusing pill organizers. Take the worry out of remembering your meds.
- Have diabetes? We have a **certified fitter of diabetic shoes** on site every day.
- We offer **immunizations** including influenza, Zostavax, and pneumococcus
- We offer **prescription compounding** for individualized medication therapy
- We offer a line of **nutritional supplements** to address nutrient depletion caused by your medications.

### **Saving you Time:**

- Experience Homer Drug's fast, friendly service with your prescriptions ready within 15 minutes in most cases.
- Not able to come into the pharmacy? **Free delivery** within 5 miles of the store.
- Request your refills any time of day or night from our app or website:  
[www.homerdrug.com](http://www.homerdrug.com)

### **Value-Added Services:**

- Our patient-care pharmacist is available to help you manage your disease state by providing you with the education and tools to improve your wellness.
- Download our app to order refills and get more information about your medications.
- We'll send a text message to your cell phone when your prescription is ready
- Check out our **Facebook page**. Like us today!
