VP of Engineering

Marqii:

Marqii is on a mission to empower hospitality businesses of all sizes to be found online through easy-to-use listings, menu, & review management.

We're a SaaS platform designed to help hospitality brands control their location data and menu content, and track and manage their reviews. With our direct partnerships with 80+ online listing platforms including Google, Yelp, Apple Maps, Facebook, and Trip Advisor. By increasing the availability of consistent and accurate information across the Internet, Marqii helps businesses move closer to the top of "__ near me" search results.

A fast growing early stage (Seed) startup, Marqii currently serves more than 2,100 restaurant and hospitality business locations across the US. Learn more about us, our team, and our values at marqii.com.

Marqii is looking for a VP of Engineering to lead us into our next stage of technical growth. Our priority is someone with a learning, growth, and leadership mindset. So if this sounds like you but you're not sure how your experience measures up, drop us a line anyway!

What You'll Do:

- Own Marqii's technical vision, developing a dashboard and tools that meet our customers' needs.
- Join Marqii's leadership team as we shape our company culture and roadmap.
- Build and manage a remote engineering team, both in the US and internationally.
- Collaborate with COO, CEO, and Product Managers to determine the future of Marqii's product offerings. You won't just be building the code behind the product, but also contributing to product development.
- Learn as you go and move forward quickly - we're okay with accruing some tech debt in the name of speed, and you should be too.

Who You Are:

- A leader with technical vision and a customer-driven product mindset
- Excited to get in on the ground floor of a growing startup and build things
- A people manager, with experience hiring and leading remote teams
- Experienced with Python and React
- Familiar with the ins and outs of B2B SaaS dashboards
- Excited about coding - you'll be getting your hands dirty on both the front and back end
- You approach work with a collaborative mindset, give and receive feedback generously, and embody a spirit of hospitality in your communication.
- Willing to travel 4-6 times/year for in-person meetings and events

What We Offer:
Salary Range: $120k-$200k + equity
Health/vision/dental Insurance
401K
WFH stipend
Fully remote working environment
Unlimited PTO
Monthly remote team events; quarterly and yearly in-person events

To apply, please send your resume to people@marqii.com, with the subject line "VP of Engineering - <Your Name> - <breakfast tacos or bagels (whichever your vote is for most perfect breakfast item)>"
