

# Liberty Hill Pharmacy

FAMILY OWNED & OPERATED

Rx & Compounding Center

***Whitney Brace, PharmD, RPh  
has been compounding for over 15 years.***

Before opening Liberty Hill Pharmacy & Compounding Center, she worked as a compounding pharmacist at Apothecary Shop Pharmacy in Austin; managed the launch of Austin Compounding Pharmacy (2011); and was a consultant to Vina Pharmacy (2014) for lab design and staff training.

Whitney keeps up with new developments in compounding through regular PCCA training. She is always looking for ways to improve patient care with better customized medications.

***We do all our compounding in-house.  
Most compounds are ready within 24 hours.***

***New to compounding?  
We can provide assistance with dosing, formulating, and  
problem solving for even the most complex patients.***

Of course, we also offer a complete selection of prescription & over-the-counter medications, durable medical equipment, pharmaceutical-grade supplements, vitamins, and more.

***Your patients will love our friendly staff  
and quick turnaround times!***
