packaging**

**Filled by
your
pharmacist**

Frequently Asked Questions

What is the cost?

- This is a FREE service to the patient. The only cost is medication copays.

What happens if a medication changes?

- Because the packages come with extensive descriptions of the medications included, medication changes are easily rectified through communication with the pharmacist, patient, and/or responsible party.

How long does it take for the medication to arrive?

- About 2-3 business days

Can you package supplements?

- Yes! Although there is a \$3-5 fee per supplement because insurance does not cover.

What about PRN medications?

- They will be packaged in a separate card or bottled like normal, per patient request.
