

Devotion Guide Instructions

How to Put It Together

The Devotion Guides (for Children and for Students) are set up to easily fold into booklets. When preparing to print, be sure to set up the printer options to print **actual size** and **double-** or **two-sided**. It is also very important to choose the **long-edge binding** option in order to print the pages in the correct order.

After printing, leave the pages of each booklet in the order they were printed. Simply take the stack of papers for one booklet and fold them in half width-wise with the “Set Free” booklet cover on the outside.

To hold each booklet together, unfold the booklet and staple it in two places along the spine. Be sure the smooth side of the each staple is on the outside of the booklet. Then, re-fold along the spine for the finished product.
