A safe, comfortable space for learning is essential for any student's success. So, when disaster strikes, it's important for schools to have a partner that can quickly mitigate the damage and restore their facilities.

Since 1996, Cotton Global Disaster Solutions has been instrumental in the restoration of neighborhood schools, large universities, and different types of educational facilities. Using innovative techniques and decades of experience, Cotton GDS rapidly gets staff and students back on track with their curriculum.

COMPREHENSIVE SERVICES

Whether your facility was damaged or you're looking to improve it by adding or renovating buildings, Cotton GDS has the services and experience necessary to carry out the project on time and within budget. Cotton GDS's comprehensive services include fire and smoke restoration, water mitigation, turnkey construction, environmental remediation, certified roofing solutions, capital improvement projects, ADA compliance, and more.

The ability to offer complete turnkey service from start to finish of a project allows for faster completion and frees facility managers from the need to communicate with multiple contractors.
