In the hospitality industry, any delay or pause of business operation is absolutely unacceptable, regardless of how big or small. Cotton understands that consistent service is paramount to keeping guests happy and cash-flow stable. When any kind of damage occurs to a hotel or resort, this may lead to business closure until the damage has been fixed. Without certainty of operation, this results in cancellation of future bookings, lost earnings on food, beverage, and events, and even potential staff loss due to the work stoppage.

Using innovative approaches to complex situations, Cotton Global Disaster Solutions (GDS) has developed practices that can substantially accelerate the recovery process for any hospitality enterprise facing a crisis. Access our decades of experience anytime, 24/7, through our emergency hotline, whenever disaster strikes your hotel, resort, restaurant or other hospitality property.
