GLOBAL DISASTER SOLUTIONS

GLOBAL DISASTER SOLUTIONS

# COTTON IS YOUR TRUSTED REMEDIATION PARTNER DURING THE CORONAVIRUS OUTBREAK

As COVID-19, otherwise known as the coronavirus, continues to affect communities around the globe, Cotton Global Disaster Solutions is here and ready to help clients through the cleaning and sanitizing process.

With vast experience in routine biological and environmental cleanup situations, Cotton GDS is prepared for situations like this. Through the use of disinfectant equipment and CDC-approved techniques, Cotton GDS can effectively clean and sanitize your property for the well-being of your employees, tenants, and visitors.

## BIOLOGICAL & ENVIRONMENTAL EXPERIENCE INCLUDES:

- H1N1 (Swine Flu)
- Avian Influenza
- SARS
- Mold Remediation
- Forensic Cleanup
- Laboratory Cleanup
- Pathogen Cleaning
- HAZMAT Cleanup

## COTTON GDS CLEANING & DISINFECTION SERVICES

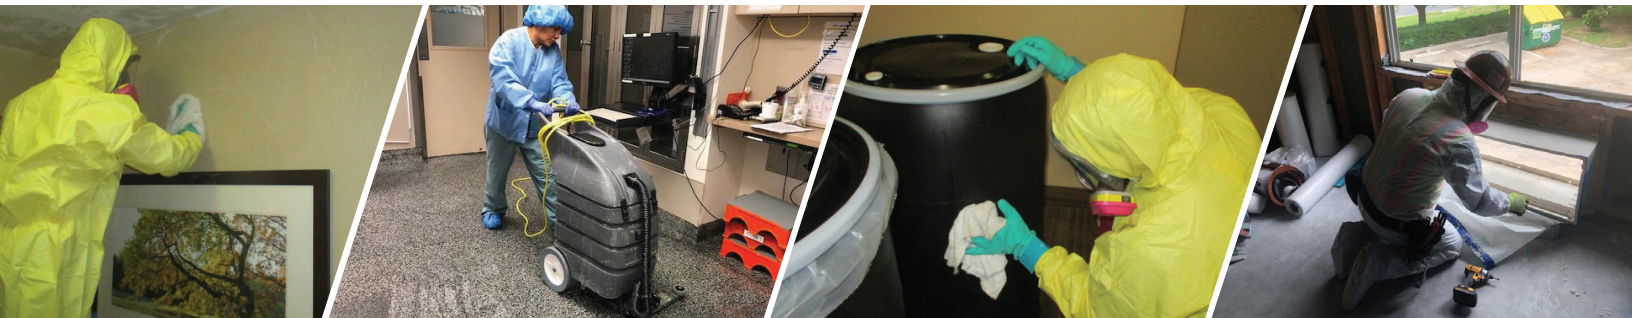

### CLEAN AND SANITIZE SURFACES

Pathogens can easily spread from one person to the next via contaminated surfaces. To reduce the threat of illnesses, Cotton GDS uses CDC-approved cleaning agents to effectively sanitize the floors, counters, desks, keyboards, and all other surfaces that your employees or tenants come into contact with.

### BROAD SANITIZING SOLUTION APPLICATION

Using broad sanitizing tools, such as electrostatic sprays and micro-mist technology, Cotton GDS decontaminates areas that are difficult to reach with traditional cleaning methods. The innovative technology quickly and evenly coats a surface with a disinfecting solution, making it easier to sanitize large public areas.

Take proper precautions to protect your business. If you believe your commercial property could benefit from Cotton's cleaning and disinfection services, **contact your Cotton Representative today, or call our 24/7 hotline for immediate assistance.**
