A SAFE AND CONVENIENT MEDICATION PACKAGING SYSTEM

Discover the Safer, Easier Way to Take Your Medication

Why waste time sorting or worrying about medication? This innovative multi-dose packaging system makes everything simpler. Sorted and packaged by your pharmacist, each dose is personalized just for you.

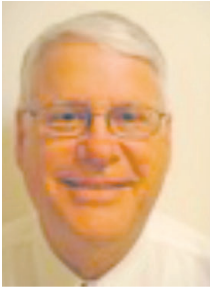

And, they're clearly labeled by date and time of day, giving you the comfort of knowing you took the right medication at the right time.

No more guesswork, and no more bottles or pillboxes.

- Your Dispill® pack is color-coded by morning, noon, evening and bedtime doses. You'll always know exactly when to take your medication.
- Individual, detachable blister cells for convenient medication on the go.
- The top of each individual blister cell lists your name, the medication within and the time it should be taken.
- Pre-packaged doses safely filled by your pharmacist.

Let's Get You Living Healthier

Are you taking your medication?

Nearly half of patients do not take their drug or take it as prescribed and fail to reach their treatment goals.

- Think of medication as an investment in your health.
- Taking medication the way it is intended to be taken can help you manage your health condition and reach your treatment goals.
- Health conditions often need management even when you're feeling well.
- Ask about the benefits and risks of the medication.
- Talk to your doctor or pharmacist: if you feel as if you're having side effects while taking the medication.
- It is important to be honest about what is going on.
- Express your concerns about possible side effects.
- Tell us about any cost issues that may be keeping you from taking your medication as prescribed.

"I don't think I really need this medication"

"The possibility of side effects really worries me"

"I don't think I can afford this medication"
