Based in Texas, SA-SO signs and safety is a one-stop-shop distributor of traffic, safety and facility products. The company specializes in making standard and custom signs to meet a customer's exact specifications. SA-SO is dedicated to exceeding customer expectations by delivering the right, quality product - right on time. Our mission is to manufacture, sell, and distribute products in a dignified manner that is fair and beneficial for everyone involved: our customers, employee owners, and our vendors. Anything you need, just **say-so!**

SA-SO has been in business since 1948 and operates as a division of ACP International. ACP International was founded in 1986 by Joe and Becky Nussbaum. From humble beginnings in a small, single-wide trailer house to a comprehensive manufacturing facility in Arlington, ACP has provided services to many companies - large and small. As a company, ACP and SA-SO have consistently grown and improved processes and prides itself on offering personalized customer service. Many employees at both ACP and SA-SO have worked here for decades. In today's business world, where people change jobs often and companies facilitate layoffs, ACP and SA-SO are proud to stand against that trend. The people of the company truly believe in the business model, and as a result, the company's longevity in the printing industry and relationships with customers and vendors have made it successful. In February 2011, SA-SO moved into the space next door to ACP International - bringing both brands under one big roof as a single company!
