

Compounded Thyroid Capsules

Custom T3, T4, and combination therapy — your dose, your formula.

✓ T3 · T4 · T3/T4 COMBINATION · CUSTOM DOSE · DYE-FREE

If you're on thyroid medication but still not feeling right — fatigue, brain fog, weight struggles, low mood — you're not alone. Many patients don't thrive on standard levothyroxine alone. Compounded thyroid capsules allow your prescriber to fine-tune **the exact combination and dose of T3 and T4** your body needs, in a clean capsule free of dyes and unnecessary fillers.

What We Compound

T4 Only (Levothyroxine)

Custom-strength levothyroxine at doses not commercially available. Dye-free, filler-free capsules for sensitive patients.

T3 Only (Liothyronine)

Immediate-release or slow-release T3 at precise doses. Useful for conversion problems or adjunct to T4 therapy.

T3/T4 Combination

Custom ratio of T3 and T4 in one capsule — an alternative to NDT (Armour) when supply is limited or exact dosing is needed.

Why Compounded Thyroid?

Doses Not Commercially Available

Synthroid comes in fixed mcg increments. We make the exact dose your labs and symptoms call for.

T3/T4 Combination in One Capsule

Many patients do better with some T3 added to T4. We combine them in one daily capsule at your prescribed ratio.

NDT Alternative

When Armour Thyroid or other NDT products are on backorder or unavailable, we provide a consistent compounded alternative.

Dye-Free & Filler-Free

Commercial thyroid tablets contain dyes and fillers that some patients react to. Our capsules are clean by design.

Compounded at The Medicine Shoppe

T3, T4, or T3/T4 combination · custom dose per your prescriber

Dye-free · filler-minimized · 30-day supply

Could This Be Right for You?

- You take levothyroxine but still experience fatigue, brain fog, or other symptoms
- Your doctor has recommended adding T3 or adjusting your current thyroid dose
- You've relied on Armour Thyroid or NDT and are experiencing supply issues
- You react to dyes or fillers in commercial thyroid tablets

Ask your doctor about compounded thyroid capsules.
