

Topi-CLICK® Pet Medications

No more pill fights. A painless way to medicate your pet, every day.

✓ TOPICAL DOSING · NO PILLS · VETERINARIAN-PRESCRIBED

If you've ever tried to pill a cat — or chase a reluctant dog around the kitchen with a medication syringe — you know the struggle is real. The Topi-CLICK® micro pen changes the game. It's a **precision-dosed topical applicator** that delivers your pet's medication through the skin of the inner ear. No hiding pills in treats. No stressed-out pet, and no stressed-out you.

How Topi-CLICK® Works

The Topi-CLICK® micro pen holds a precision-compounded transdermal gel. You twist the base to dispense one exact dose — a tiny amount, about the size of a pencil eraser — and apply it to the **hairless inside of your pet's ear flap**. The medication absorbs through the skin. No pills to swallow, no bitter taste, no fighting. One click. Done.

Common Medications We Compound

Methimazole For Cats

The standard treatment for feline hyperthyroidism. Topi-CLICK® delivery is a game-changer — no more twice-daily pill battles with your cat.

Fluoxetine Anxiety & Behavior

For pets with separation anxiety, aggression, or compulsive behaviors. Consistent daily dosing without the stress of oral administration.

Prednisolone Anti-inflammatory

For allergies, inflammation, and immune-mediated conditions. Precise low-dose application avoids GI upset common with oral steroids.

Why Pet Parents Love Topi-CLICK®

- No More Pill Fights**
Apply to the ear — no pills, no syringes, no wrestling matches.
- Exact Dose Every Time**
One click dispenses one precise dose. No measuring, no guessing, no waste.
- Clean & Mess-Free**
Airless dispenser keeps the medication sterile and your hands clean.
- Happier Pets**
Consistent, stress-free dosing means better adherence and better outcomes.

Topi-CLICK® Transdermal Pet Medications

Other medications available — ask your veterinarian.

Could This Help Your Pet?

- Your cat or small dog fights you when taking pills or liquid medication
- Your pet is on long-term medication and daily dosing is a struggle
- Your vet has prescribed methimazole, fluoxetine, prednisolone, or similar
- You want a clean, stress-free, accurate way to medicate your pet every day

Ask your veterinarian about Topi-CLICK® transdermal medications.
