

## Humanity Road – Peru

Activation: Flooding

Publication Date: Situation Report, No. 2, 21 March 2017

---

### Highlights

Intense rains have caused severe flooding and landslides in 24 of Peru's 25 regions. 12 regions have been declared in a state of emergency [source](#). It is the worst flooding in two decades, and more storms are expected.

According to INDECI report, as of 20 March, 78 people have died, and more than 100,000 are affected across the country [source](#). Peru's National Emergency Operations Center (COEN) estimates that over 1,000 kilometers of roads have been destroyed and 159 bridges have collapsed [source](#). The Amazon River is almost at flooding point. Water levels are expected to rise in the coming days leading to possible flooding in Maynas province, in the Loreto region [source](#).

A majority of communication networks have been repaired [source](#), and field hospitals have been established in Tumbes, Carapongo, and Piura [source](#). International aid has been sent from Colombia, Ecuador, Chile, and Paraguay [source](#).

This Regional Situation Report No. 2 is based on reports from social media and includes highlights of the situation, situation reports and maps, social media accounts, and highlights from some of the regions most impacted. New additions since Report No. 1 are in dark blue text.

## Peru Flooding, Regional Situation Report No. 2, 21 March 2017

### Situation Report – (period covered: 18-21 March, 2017)

Prepared by: [Humanity Road](#) / [Animals in Disaster](#) Follow: @Humanityroad / @Disasteranimals / @jAidDog

#### Situation Overview

#### Background:

Intense rains have caused severe flooding and landslides in 24 of Peru's 25 regions. 12 regions have been declared in a state of emergency. [Source](#) It is the worst flooding in two decades, and more storms are expected. According to the National Emergency Operations Center, 99,475 Peruvians had lost everything since the beginning of the year, while 626,928 had suffered less serious damage to their homes. [Source](#)

Highways, bridges, and railways have been damaged hindering the flow of aid and leaving some towns stranded. Communications are also out in some areas. Water treatment facilities and sewage pipes have been damaged impacting the water supply. There is a shortage of drinking water in some areas. Some hospitals have been damaged by flooding and/or are in need of supplies and water, and there is the possibility of increased disease outbreaks due to mosquitoes. [Source](#) [Source](#)

#### Highlights:

#### New Updates shown in blue font

21 Mar:

- **Nationwide:** According to the INDECI report, updated to March 20, there are already 78 deaths and more than 100 thousand people affected nationally. [source](#)
- **Aid:** International aid received from Chile, Colombia, Ecuador, Paraguay [source](#)
- **Crops:** More than 56 thousand acres of crops have been damaged. [source](#)
- **Roads:** Peru's National Emergency Operations Center (COEN) estimates that over 1,000 kilometers of roads have been destroyed and 159 bridges have collapsed. [Source](#) The Central Highway is blocked by more flooding from the Rimac River in the Cupiche area. [source](#)
- **Roads:** President of Peru Kuczynski announced that the priority will be to reopen the Pan-American Highway as soon as possible [source](#)
- **Communications:** Table showing status of telephone, mobile and Internet services. [source](#)
- **Lima:** In Lima, Pucusana District (pop 9,231) **Mar 21 declared disaster** [source](#)
- **Loreto:** The Amazon River is almost at flooding point. Water levels are expected to rise in the coming days leading to possible flooding in the districts of Punchana (pop. 78,446), Belen (pop. 66,804), Iquitos (pop. 457,865) and San Juan Bautista (124,100) in Maynas province, in the Loreto region. [source](#)

20 Mar:

- **Water:** Since Mar 18 @BackusOficial has been producing water at its beer production facilities to provide to those impacted [source](#)
- **Water:** Gloria Milk trucks are distributing potable water in Arequipa [Source](#)
- **Food:** WFP Peru is one of the few country offices in the world that does not have a food assistance operation (food or cash transfers). Its support to government priorities is done through technical assistance and policy support. [source](#)
- **Medical:** In order to provide rapid medical care to the population affected by the torrential rains, EsSalud set up field hospitals with doctors and nurses in Piura, Tumbes and Lima (Carapongo) to provide care for patients who require urgent care. [Source](#)

- **Medical:** 20 Mar: Volunteer doctors and students from [Colegio Médico del Perú](#) are providing medical support, supplies, and food. They need donations of water, medicine, hygiene items, rubber boots, tents, and more. [Source](#)
- **Aid:** Colombia has sent relief supplies and 4 helicopters to assist with rescues. Ecuador and Chile have sent supplies, and Paraguay will deliver rice and other supplies this week. [Source](#)
- **Communications:** Telefonica del Peru, América Móvil (Claro), Bitel and Entel have been working with the government to re-establish communications and provide telecommunications infrastructure and facilities in areas affected by the disaster. Four mobile operators are providing support along Carretera Central (Central Highway). The majority of mobile services has been repaired. Claro is still working on its network in Huarmey, Entel is working in Lurigancho and Carapongo, and Movistar is working on its network in Casma. [Source](#)
- Needs include tents, blankets, pillows, lanterns, water, and non-perishable food. [Source](#)
- Government of Peru declared emergency in 15 districts of Lima [source](#)
- Flooded towns have not had food for about a week. Supermarkets in Lima are out of water and running low on food. (personal communication from Lima).
- The Central Highway (Carretera Central - Lima to Chanchamayo) is now restricted to only emergency vehicles, cargo vehicles carrying food, fuel and potable water will have access; vehicles with donations, machinery to rehabilitate roads, and buses for passenger transportation. The restriction is in place for the next 10 days, 24 hours a day. [Source](#)
- MapAction has deployed a team to Lima to support the United Nations Disaster Assessment and Coordination team in creating an overview of affected areas and priority needs. [Source](#)
- Ecuador has sent 3,500 kilos of food rations to Lima. [Source](#)

19 Mar:

- **Minister of Culture for Peru requested:** “We need tuna, oil, rice, biscuits, sanitary towels, toilet paper, milk, mints, canned goods.” [source](#)
- Regions affected include: Amazonas, Áncash, Apurímac, Arequipa, Ayacucho, Cajamarca, Cusco, Huancavelica, Huánuco, Ica, Junín, La Libertad, Lambayeque, Lima, Madre de Dios, Moquegua, Pasco, Piura, Puno, San Martín, Tacna, Tumbes, Ucayali. [Source](#)
- 8 health facilities have collapsed, 16 are uninhabitable, and 380 have been affected. [Source](#)
- Red Cross Peru has activated emergency teams in Santa Ana, Chiclayo, Chimbo, San Jacinto and Tambo, areas affected by the floods and mudslides. Initial, rapid assessments from these teams indicate priority needs include shelter, water and sanitation, livelihood and food security support, and emergency healthcare with an emphasis on vector control and responding to water-borne diseases. The volunteers are also providing first aid, pre-hospital assistance and helping people connect with their families [source](#)
- Areas north of Lima at higher elevations have no running water, electricity or cell phone service. [Source](#)
- In total, more than 300 Armed Forces brigades are deployed in Huachipa and Chosica, among Army personnel, Navy and Air Force, supporting the cleaning of roads affected by debris and mud, the product of the last overflow of the River Rimac. The head of the Defense sector also oversaw the distribution of breakfast among the affected population. 1,500 Pachacutec breads were distributed, and a thousand rations of oatmeal with milk and an equal number of boiled eggs, all prepared in two army kitchens of the Army transferred to the area of attention. [Source](#)
- “Prime Minister Fernando Zavala said 72,115 Peruvians had lost everything, while 567,551 had suffered less serious damages. He predicted days of more rain ahead.” [Source](#)
- The Instituto Nacional de Defensa Civil (INDECI) and the Peruvian Navy began shipping relief supplies to the northern part of the country on 18 March. [Source](#)

- Colombia is sending 30 tons of aid to Peru. [Source](#)
