Highlights

Today’s report is a summary of new information found on social media following the 7.3 magnitude aftershock that occurred on 12 May 2015 in Nepal, China, and India. Our live situation report and summary situation reports #1-11 covering the Nepal earthquake of 25 April can be accessed at http://humanityroad.org/apr25nepalquake/.

This situation report highlights urgent needs, situational awareness, significant updates, social media highlights, and underserved locations. Humanity Road volunteers have been contributing to the analysis and amplification of information gathered through social media data mining since 25 April. We continue to collaborate with Translators without Borders and Kathmandu Living Labs.

Highlights found today in social media and mainstream media begin on Page 2. Included are updates on transportation, communications, damage to hospitals, impacted districts, and maps and photos/videos.

Situation Overview

Background:

Just 17 days after a 7.8 earthquake struck Nepal, the country has been hit by two powerful aftershocks: a magnitude 7.3 earthquake at 07:05:19 UTC and a magnitude 6.3 earthquake at 07:36:53 UTC, both on May 12, 2015. (source) The 7.3 magnitude quake was centered 18km SE of Kodari. The 6.3 was centered 33km NNE of Ramechhap. (source)

The 7.3 earthquake was one of 11 aftershocks that struck within a 34 km radius of Kodari, Nepal. Three other earthquakes struck within 33 km of Ramechhap, Nepal and one struck 5 km SSW of Zuobude, China (67 km E of Banepa, Nepal). (source)

More buildings have collapsed, and new landslides are blocking roads and highways. Some international Urban Search and Rescue (USAR) teams are still in country and have been requested to support the authorities with search and rescue, and military assets are conducting aerial assessments. (source)

The number of deaths and injuries varies. According to Nepalese government spokesman Minendra Rijal, at least 48 people have died and another 1,261 have been injured in Nepal, and 32 districts have been affected. At least 17 people in India have died according to Home Ministry spokesman Kuldeep Dhatwalia. Sixteen of those deaths were in Bihar state, with the other in Uttar Pradesh. The earthquake also affected China, killing a woman in Tibet, according to China’s state-run Xinhua news agency. In the same report, local police officer Wu Aijun said that landslides in the Gyirong area in Tibet. (source)
