Activation: *Tropical Cyclone Gita*

Situation Report 1 - period covered: 12-13 Feb, 2018

Prepared by: Humanity Road / Animals in Disaster

---

**Situation Overview**

**Highlights:**

The following is Situation Report #1 for Tonga based on early indications in social media. Humanity Road activated its disaster desk in response to Cyclone Gita which heavily impacted Tongatapu in Tonga. Gita made landfall as the equivalent of a category 4 storm. Fiji’s MetService said the category four storm was very close to being upgraded to the highest category, five. [source](#)

Tonga, officially the Kingdom of Tonga, is a Polynesian sovereign state and archipelago comprising 169 islands, of which 36 are inhabited. The total surface area is about 750 square kilometres (290 sq mi) scattered over 700,000 square kilometres (270,000 sq mi) of the southern Pacific Ocean. It has a population of 107,122 people, of whom 70% reside on the main island of Tongatapu. [source](#)

Situation Overview

Background

On 12 February, 2018, the Tonga National Emergency Management Office was activated at 7:00am in preparation for Tropical Cyclone Gita which was a Category 3 storm. It was located near 20.9 South 168.6 West or 670km East-Northeast of Nuku'alofa or 600km East-Northeast of Lifuka. People were advised to have their emergency kits packed and to evacuate if living in flood-prone areas. source  At 10:00am on 12 February, the Prime Minister declared a state of emergency for the whole of Tonga. source

On Tongatapu, the category four cyclone brought winds of over 233km/h which ripped roofs off houses, brought down trees, destroyed a Catholic church, and took the Tongan Met Office and the national radio station offline. source

Significant Updates (most recent first)

13 Feb:

● Tonga's Parliament House has been destroyed #TCGita Source: FB post by Salote Sisifa. PC: Palu Ertugrul & Kyoshi Karsten Motuapuaka source
● The office of the Tonga MetService has been structurally damaged by Gita, so forecasting duties have been passed over to Fijian authorities. source
● Graham Kenna of Tonga's National Emergency Office told Radio New Zealand a church has been completely destroyed - "There's a lot of damage in the city ... we know that one of the Catholic churches is completely gone and others are damaged," he said. source
● "...a Nuku'alofa local of five years, says there is "a fair bit of destruction" on her street. "There's water absolutely everywhere. One end of the street is blocked by two fallen trees. There's definitely flooding. I'd put it at 50 centimetres on the street, and at least 30 centimetres in my house. I'm upstairs now with my landlord but my whole house downstairs is now flooded." source
● Travel Advisory for New Zealanders heading to Tonga source
● The New Zealand government has pledged an initial $50,000 to help rescue and relief operations in cyclone-battered Tonga. source A New Zealand Defence Force plane is also ready to fly to Tonga once it is known what is needed in the country. source
● “A lot of fruits trees are down. One of the Tongan staple food this summer season are Breadfruits. All down.” source

12 Feb:

● Following the State of Emergency Declaration this morning by the Acting Prime Minister, Hon. Semisi Sika, the Commissioner of Tonga Police, Stephen Caldwell, as a further precaution has ordered a curfew in the Central Business District area of Nuku'alofa starting from 9:00pm tonight until 7:00am tomorrow morning Tuesday 13 February 2018 (Public Order Act, Section...
8). The following roads delimits the CBD area, Tupoulahi Road to the east, Mateialona Road to the south, Vaha’akolo Road to the west and Vuna Road to the North. source

Airports

Status

- 13 Feb: Fiji Airways advises that due to the adverse weather conditions associated with Tropical Cyclone Gita, a number of flights are cancelled. Fiji Airways flights to/from Nuku'alofa, Tonga scheduled for Tuesday 13 February are cancelled. Affected guests will be rebooked on subsequent flights and contacted by our Reservations Team once weather conditions permit and flight operations resume at Fua'amotu International Airport, (TBU). Fiji Link flights to/from Kadavu, Cicia, and Vanuabalavu over the next two days (Tuesday 13 February and Wednesday 14 February) are cancelled. Affected guests will be rebooked on subsequent flights and contacted by our Reservations Team once weather improves and airport/runway conditions permit. Guests are requested to ensure their contact details in their bookings are correct/ up-to-date. source

Communications

Communications Sector

- International dial code: +676 Tonga Communications Corporation (TCC) is the only fixed line operator in Tonga with a 100% market share on fixed telephone lines.  
- There are two mobile network operators – TCC and Digicel Tonga – both offering GSM and 3G services.  
- Internet: Country code: .to TCC states that it has a 70% market share on dial up and broadband internet. TCC’s internet service is called "Kalianet" and is available in Tongatapu, Ha'apai, Vava'u, and 'Eua through WiMax broadband. Kalianet also offers ADSL2+ and leased line services.  

Digicel and TCC offer mobile broadband services over their mobile networks.  

- The Tonga National Emergency Management Office (NEMO), located in the capital Nuku'alofa, uses both VHF and HF land based radio communication systems. In addition, the Tonga Meteorological Service uses land based VHF and HF radio. The NEMO/Met Office VHF network operates on three simplex channels. Given the very flat topography of Tonga, line of sight (LOS) connectivity is sufficient between the sites on the NEMO/Met VHF network in Nuku'alofa and Ha'apai. The VHF network used by the NEMO and Met Office has six active base station sites in Nuku'alofa. The VHF network on the island of Ha'apai (established in 2016) has four active VHF base station sites.  
- The Tonga Met Service also operates the country's maritime coastal VHF and HF radio network. All international standard VHF marine channels (CH0-CH88) are programmed into the coastal VHF radio station. However, the VHF coastal radio channels actively used in Tonga are CH12, CH 16, and CH26. Multiple HF channels are programmed on the coastal HF network between the 2 - 9 MHz range.
• Tonga Police and Defence also have their own radio communication networks. Fire are looking to establish a UHF radio network.

Status

13 Feb:
• Communications are difficult, as power remains off to many parts of the island. The national radio station has also been knocked out by Gita. source
• Due to the known power outages and expected communications outages, the Fiji Maritime Surveillance Rescue Coord Ctr is monitoring and analyzing #Fiji and #Tonga for response and assisting with @VFRfiji for Tele-Med support. source
• Mariners and ocean-going vessels can listen out on VHF Marine Ch26 and HF radio 4372KHz, 8746KHz at 4-hourly intervals for weather updates. Next update 1603h
• UCall Tonga - If you are abroad, you can top up your loved ones on ✔️ www.ding.com. source

Power and Fuel

Status

13 Feb:
• Authorities last night switched off the electricity for about 75,000 residents who live on Tongatapu. source
• Power came back on in Aoloau before midnight last night, street lights too, out for 3 days, no water yet out since Friday morning. source
• All Tonga Power offices in Tongatapu and the outer islands will be closed today until further notice. The power supply will remain off in order to allow the linesmen to survey the damages and assess what is required before any restoration works can take place. source

Traditional Media (TV, Radio, Newspapers)
Tonga Broadcasting Commission (TBC) is the national broadcaster for Tonga. TBC, which is
government owned, runs three radio stations and two free-to-air television channels. Radio Tonga 1
(also known as A3Z) is the main AM radio station offered by TBC, and covers all of the country. In an emergency, Radio Tonga broadcasts regular updates on weather events. Radio Tonga 2 (also known as Kool 90 FM) is a commercial station. Under a joint partnership project, a new AM radio transmitter is being installed for TBC, the project kicked off in 2016. TBC also operates FM 103, a 24-hour Radio Australia relay. The TV channels are Television Tonga and Television Tonga 2. TV Tonga works in affiliation with overseas broadcasters whilst Television Tonga 2 offers more domestic content. source
