

## Humanity Road – Peru

Activation: Flooding

Publication Date: 20 March 2017

---

### Highlights

Intense rains have caused severe flooding and landslides in 24 of Peru's 25 regions. 12 regions have been declared in a state of emergency. [Source](#) It is the worst flooding in two decades, and more storms are expected. According to the National Emergency Operations Center, 99,475 Peruvians had lost everything since the beginning of the year, while 626,928 had suffered less serious damage to their homes. [Source](#)

Highways, bridges, and railways have been damaged hindering the flow of aid and leaving some towns stranded. Communications are also out in some areas. Water treatment facilities and sewage pipes have been damaged impacting the water supply. There is a shortage of drinking water in some areas. Eight hospitals have collapsed, and 16 others are uninhabitable. [Source](#) Some hospitals are in need of supplies and water, and there is the possibility of increased disease outbreaks due to mosquitoes. [Source](#) [Source](#)

This Regional Situation Report is based on reports from social media and includes highlights of the situation, situation reports and maps, social media accounts, and highlights from some of the regions most impacted..

## Peru Flooding, Regional Situation Report No. 1, 20 March 2017

### Situation Report – (period covered: 18-20 March, 2017)

Prepared by: [Humanity Road](#) / [Animals in Disaster](#) Follow: @Humanityroad / @Disasteranimals / @jAidDog

#### Situation Overview

#### Background:

Intense rains have caused severe flooding and landslides in 24 of Peru's 25 regions. 12 regions have been declared in a state of emergency. [Source](#) It is the worst flooding in two decades, and more storms are expected. According to the National Emergency Operations Center, 99,475 Peruvians had lost everything since the beginning of the year, while 626,928 had suffered less serious damage to their homes. [Source](#)

Highways, bridges, and railways have been damaged hindering the flow of aid and leaving some towns stranded. Communications are also out in some areas. Water treatment facilities and sewage pipes have been damaged impacting the water supply. There is a shortage of drinking water in some areas. Some hospitals have been damaged by flooding and/or are in need of supplies and water, and there is the possibility of increased disease outbreaks due to mosquitoes. [Source](#) [Source](#)

#### Highlights:

20 Mar:

- Government of Peru declared emergency in 15 districts of Lima [source](#)
- Flooded towns have not had food for about a week. Supermarkets in Lima are out of water and running low on food. (personal communication from Lima).
- The Central Highway (Carretera Central - Lima to Chanchamayo) is now restricted to only emergency vehicles, cargo vehicles carrying food, fuel and potable water will have access; vehicles with donations, machinery to rehabilitate roads, and buses for passenger transportation. The restriction is in place for the next 10 days, 24 hours a day. [Source](#)
- MapAction has deployed a team to Lima to support the United Nations Disaster Assessment and Coordination team in creating an overview of affected areas and priority needs. [Source](#)
- Ecuador has sent 3,500 kilos of food rations to Lima. [Source](#)

19 Mar:

- Regions affected include: Amazonas, Áncash, Apurímac, Arequipa, Ayacucho, Cajamarca, Cusco, Huancavelica, Huánuco, Ica, Junín, La Libertad, Lambayeque, Lima, Madre de Dios, Moquegua, Pasco, Piura, Puno, San Martín, Tacna, Tumbes, Ucayali. [Source](#)
- 8 health facilities have collapsed, 16 are uninhabitable, and 380 have been affected. [Source](#)
- Red Cross Peru has activated emergency teams in Santa Ana, Chiclayo, Chimbo, San Jacinto and Tambo, areas affected by the floods and mudslides. Initial, rapid assessments from these teams indicate priority needs include shelter, water and sanitation, livelihood and food security support, and emergency healthcare with an

emphasis on vector control and responding to water-borne diseases. The volunteers are also providing first aid, pre-hospital assistance and helping people connect with their families [source](#)

- Areas north of Lima at higher elevations have no running water, electricity or cell phone service. [Source](#)
- In total, more than 300 Armed Forces brigades are deployed in Huachipa and Chosica, among Army personnel, Navy and Air Force, supporting the cleaning of roads affected by debris and mud, the product of the last overflow of the River Rimac. The head of the Defense sector also oversaw the distribution of breakfast among the affected population. 1,500 Pachacutec breads were distributed, and a thousand rations of oatmeal with milk and an equal number of boiled eggs, all prepared in two army kitchens of the Army transferred to the area of attention. [Source](#)
- “Prime Minister Fernando Zavala said 72,115 Peruvians had lost everything, while 567,551 had suffered less serious damages. He predicted days of more rain ahead.” [Source](#)
- The Instituto Nacional de Defensa Civil (INDECI) and the Peruvian Navy began shipping relief supplies to the northern part of the country on 18 March. [Source](#)
- Colombia is sending 30 tons of aid to Peru. [Source](#)

18 Mar:

- The airport is in chaos with thousands of tourists trying to leave and aid agencies trying to come in. [Source](#)
- 852 schools have been damaged. This includes 276 in Piura, 138 in Lambayeque, and 116 in Ica. [Source](#)
- As of 18 March, the Air Force had rescued 292 people in areas of Lima including Carapongo, Sayán, Huachipa, and Cañete. [Source](#)
- A lot of animals are suffering. Volunteers from the veterinarian community are needed. [Source](#)
