WE PUT THE QUALITY IN QUALITY CONTROL

Quality isn't just a talking point at Clean Team. It is a standard that we live and work by. We pride ourselves on delivering the high-quality service that our corporate clients not only need, but demand. That's why our system of checks and balances is designed so that every detail is covered:

- We begin every day with a “kick-off” meeting where our managers and team leaders discuss each building to be serviced that day to ensure quality service.
- We don't just clean, we disinfect – which is mission critical for Covid-19
- Daily reviews of our timekeeping software provide complete accountability for every employee
- We offer our clients their choice of flexible scheduling to meet every need
- Convenience – we offer you a single source for your supplies
- Daily 4pm management meeting reviews all requests to ensure follow up

Safety is a Big Part of Quality

At Clean Team, we work very hard to instill a culture of safety across our entire staff. Safety doesn't just happen. It is something our professional management and staff work hard at every day and we are proud of our safety record.

- Our general safety training for every employee includes a thorough understanding of SDS Sheets, BBP, PPE, wet floor signs, smart lifting and more.
- In response to Covid-19, we don't just clean, we disinfect – to ensure the safety of your corporate staff, your guests, your suppliers and our employees
- We consistently employ electrostatic disinfection fogging in all of our customer facilities, which is the most effective way to kill any viruses (including Covid-19)
