

# Phenylpropanolamine

## **What is phenylpropanolamine used to treat?**

Phenylpropanolamine is a generic drug for Proin®. It is a sympathomimetic medication used to treat urinary incontinence in dogs and cats. Phenylpropanolamine can increase sphincter tone in the urethra.

## **What are the side effects of phenylpropanolamine on cats or dogs?**

The most common side effects include vomiting, diarrhea, rapid heart rate, elevation in blood pressure, restlessness, irritability, increase in thirst, and difficulty urinating.

If you suspect any side effects, overdose, or an adverse reaction to phenylpropanolamine, call your vet office immediately or [A.S.P.C.A.'s Animal Poison Control Center](#) at 888.426.4435. A change in dose or medication may be warranted based on the determination of the veterinarian.

## **How do I know if I need phenylpropanolamine to treat my cat or dog?**

Some signs of urinary incontinence that can be displayed in your pet include the following: dripping urine, irritation, and redness on the skin from the dripping.

## **Where can I get phenylpropanolamine to treat my cat or dog?**

Phenylpropanolamine can be obtained at a veterinary clinic or compounding pharmacy. You will need a valid prescription from your veterinarian if you plan to fill the medication at the pharmacy. Professional Arts Pharmacy has the medication in stock, and we offer local pickup in Ellicott City, Maryland. If you reside in other states, your medication can be shipped and delivered within 1-2 days from the day of ordering. If you have questions about ordering this medication, please give us a call at 443-200-1200 or visit our website at [www.WeMakeMeds.com](http://www.WeMakeMeds.com).

Disclaimer: Not intended to be a replacement for professional veterinarian advice, diagnosis, or treatment. Always seek the advice of your veterinarian with any questions you may have regarding the medical condition of your pet. If you believe your pet has a medical emergency, call, or visit your vet office or your local veterinary emergency hospital immediately.
