

# Ponazuril

## **What is ponazuril used to treat?**

Ponazuril is a generic drug for Toltrazuril sulfone®. It is an antiprotozoal medication used to treat equine protozoal and coccidia infections in cats and dogs.

## **What are the side effects of ponazuril on cats or dogs?**

Side effects are uncommon but may include gastrointestinal upset, including vomiting and diarrhea

If you suspect any side effects, overdose, or an adverse reaction to ponazuril, call your vet office immediately or [A.S.P.C.A.'s Animal Poison Control Center](#) at 888.426.4435. A change in dose or medication may be warranted based on the determination of the veterinarian.

## **How do I know if I need ponazuril to treat my cat or dog?**

Some signs of protozoa infections that can be displayed in your pet include the following: lack of appetite, weight loss, diarrhea, dehydration, lethargy, and vomiting.

## **Where can I get ponazuril to treat my cat or dog?**

Ponazuril can be obtained at a veterinary clinic or compounding pharmacy. You will need a valid prescription from your veterinarian if you plan to fill the medication at the pharmacy.

Professional Arts Pharmacy has the medication in stock, and we offer local pickup in Ellicott City, Maryland. If you reside in other states, your medication can be shipped and delivered within 1-2 days from the day of ordering. If you have questions about ordering this medication, please give us a call at 443-200-1200 or visit our website at [www.WeMakeMeds.com](http://www.WeMakeMeds.com).
