

# Trilostane

## **What is trilostane used to treat?**

Trilostane is a generic drug for Desopan®. It is a synthetic enzyme inhibiting drug that is used for the treatment of hyperadrenocorticism (Cushing's disease) in dogs and cats. Hyperadrenocorticism develops when there is overproduction of cortisol hormone by the adrenal glands, which leads to Cushing syndrome. It is more commonly found in dogs than in cats. This condition is not cured by trilostane but can be controlled successfully

## **What are the side effects of trilostane on cats or dogs?**

The most common side effects may include loss of appetite, lethargy, weakness, vomiting, and diarrhea.

If you suspect any side effects, overdose, or an adverse reaction to trilostane, call your vet office immediately or [A.S.P.C.A.'s Animal Poison Control Center](https://www.aspcapet.org/animal-poison-control) at 888.426.4435. A change in dose or medication may be warranted based on the determination of the veterinarian.

## **How do I know if I need trilostane to treat my cat or dog?**

Some signs of hyperadrenocorticism that can be displayed in your pet include the following: excessive drinking and urination, increased appetite, lethargy, weakness, hair loss, and curling of the ear tips.

## **Where can I get trilostane to treat my cat or dog?**

Trilostane can be obtained at a veterinary clinic or compounding pharmacy. You will need a valid prescription from your veterinarian if you plan to fill the medication at the pharmacy. Professional Arts Pharmacy has the medication in stock, and we offer local pickup in Ellicott City, Maryland. If you reside in other states, your medication can be shipped and delivered within 1-2 days from the day of ordering. If you have questions about ordering this medication, please give us a call at 443-200-1200 or visit our website at [www.WeMakeMeds.com](http://www.WeMakeMeds.com).

Disclaimer: Not intended to be a replacement for professional veterinarian advice, diagnosis, or treatment. Always seek the advice of your veterinarian with any questions you may have regarding the medical condition of your pet. If you believe your pet has a medical emergency, call, or visit your vet office or your local veterinary emergency hospital immediately.
