New Team Member

We were sad to see him to go but Pharmacist Brad has left on his new adventure!! We wish him well on the next chapter in his life!

Meet the newest member of our team! Pharmacist Dr. Sarah Jonjak, PharmD, MPH.

Hello Co-op Patrons! Some of you may know me since I graduated from Hayward High. I recently graduated from the University of MN – Duluth with my dual degree: Doctor of Pharmacy and Master of Public Health. I am happy to be back in the area as your Pharmacy Manager at the Co-op. I look forward to meeting all of you and please let me know any services you need. ~SJ

Flu Season is Coming!

We currently have flu shots available!

Appointments are preferred- please give us a call 715-634-8238 to schedule your vaccination time!

Nature's Corner

With flu season in our midst there has been a lot of talk of Elderberries. Clinical research has shown that some extracts may reduce flu-like symptoms when taken within the first 48 hours of symptoms. *Elderberry caution: The elderberry contains a cyanide producing chemical in its leaves and when the berries are green.*
