HOW IT WORKS

Close it at the minimum and let guests start their own tabs, or keep it open and build it out however you like – order catering for the group, beer/wine/well only, a full open bar, drink tickets, etc.

20% gratuity not included and is paid day of at the bar.

BAR TAB:

CONSUMPTION TAB

We give you wristbands to hand out to your guests - these tell us who is part of your tab. You can set a limit, restrict what can be added, or just keep it open.

Limit your bar tab by
- set a cut-off point 'cap' for your tab
- limit what can be added (just beer, wine, & well, etc.)

OR, keep it open!
you can always check in with the bar to see what your tab is at and make a decision then.

Can we decorate?

Light decorations are welcome. Nothing hung on the walls, or extending beyond the reserved space. Please factor any additional set up needed into the time of the reservation - there is no allotted set up time.

Can we reserve the bocce courts?

We do not reserve the courts. They operate on a first-come walk-in basis with the exception of league play.

Our group is fewer than 20, can we reserve the Platform?

Platform reservations are for groups of 20 or more. The rest of the main level bar is great for groups of all sizes and operates on a walk-in, first-come basis. We host lots of groups without reservations (and always appreciate a heads up!).

Can guests under 21 join?

We welcome guests under 21 until 6PM, at which point we become strictly 21+. No exceptions.

Can we stay in the space after our 3 hours is up?

If there's no reservation after yours, you're welcome to remain on the Platform, though reserved signage will come down and the space will reopen to the public. Either way, you're always welcome to stay in the bar.

How soon in advance should I inquire to book?

As early as possible - we book quickly, especially during the holiday and wedding seasons.

Can my group pay individually if I put my card down for the minimum?

Orders must be on one shared tab until the minimum is met. After that, guests may open their own tabs!
