

Exclusive CBD for Pharmacies

Building off Medterra's success, Medterra Clinical is designed specifically for those in need of the most relief. With higher strengths, powerful ingredient blends, and potent blends of minor cannabinoids, these most advanced CBD products were developed with Medterra's Medical Advisory Board and are available exclusively to Independent Pharmacies and Medical Offices.

Advanced Ingredients. Remarkable Results.

Each formulation is designed with the same quality standards of Medterra. Using hemp-derived CBD, grown, harvested, extracted, and manufactured right here in the U.S.A, they ensure the products have no THC and are third party tested, so your customers can feel reassured and enjoy high quality CBD products.

Medterra's proprietary whole-plant extraction process to squeeze out every last bit of the hemp plant's beneficial compounds while filtering out the THC creates the ultimate CBD extract, with a 10:1 ratio of CBD to minor cannabinoids, which makes a great option for customers looking to get well-rounded benefits.
