

Clinical Services are the Future of Pharmacy

Your pharmacy is more than a prescription filler; it is a healthcare destination. As your patients continue to seek convenience and accuracy in diagnosis and treatment, **testing just makes sense.** Independent pharmacies don't have to look further than the SiteLabs™ Digital Platform, an all-in-one solution that automates every step of the testing process.

Covid Testing with SiteLabs™: A Real Pharmacy's Experience

Covid may look different now than in 2020, but we are certainly not done with it! Pharmacies like our client in Texas seized the opportunity to offer Covid testing services in November 2021, and over four months generated \$33,046 in revenue at an 80.5% (\$26,602) margin.

This pharmacy now has the system in place to offer additional POC tests like Flu, Mono, Strep, Pregnancy and many more.

Your cost to set up, implement, and maintain: \$0

Our digital platform streamlines the entire testing workflow so you can offer an efficient and profitable POC testing program

The SiteLabs™ Digital Platform Automates:

Scheduling

Payments

Test Administration

Results Reporting

Resulting in a Turnkey POC Testing Program
