THE COTTON ADVANTAGE

capabilities & service

Cotton Logistics provides worldwide operational support and infrastructure for the shortages of resources and workforce housing associated with complex and ever-changing work environments. The in-house team of executive management, construction managers, operations coordinators, hospitality directors and culinary artists can deliver tailored solutions for even the most challenging of scenarios.

Whether the task involves a remote geographic region, extreme climate, stringent timeline or other unique problem set, Cotton Logistics pairs subject matter expertise with innovation and flexibility to provide the best possible solution that satisfies each client's specific requirements.

As a full-service, turnkey lodging and oilfield services provider, Cotton Logistics is committed to supporting your goals by creating an efficient, inviting community atmosphere for the workers who keep your enterprise moving forward. From initial concept and design, through engineering, permitting and installation, no detail during the construction phase is overlooked.

At Cotton Logistics, we believe temporary housing shouldn't feel temporary. That is why we're dedicated to creating lodging properties that work and feel like fully-functioning communities. Clean and inviting, our OneLodge camps boast comfortable guest rooms with private bathrooms, in-ground utilities, covered decks and walkways, rock fire pits and a variety of indoor and outdoor recreational facilities that keep your workforce happy and ready to work. Each private room is outfitted to feel like a home away from home, where workers can unwind after a long day on the job - connecting with family over the wireless internet network or catching their favorite cable television show.

The attention to detail is apparent across each OneLodge property, from the quality of the facilities to food services and housekeeping. We implement a seamless camp management system; so everything functions at optimum levels, allowing your workforce to focus solely on their operational responsibilities while you focus on driving business. The difference is right in our hands...**One Crew. One Detail. One Community.**

CULINARY

The Art of Catering

Productive workers need quality fuel to power them through each challenging day. Cotton Culinary provides superior food services that will keep your workforce happy and energized. Whether the setting is a OneLodge kitchen, a corporate party or remote well site, Cotton Culinary executive chefs thoughtfully plan out each menu and all services and selections are customizable to meet the needs of our client and the operational environment.

We understand the quality of the meals play an integral role in your employees' morale. Therefore, we continue to develop new concepts to appeal to our diverse client base and adjust each menu based on the feedback and requests from the client. Only the freshest ingredients are used and certified staff follow strict guidelines pertaining to safety and food handling.

ONEEDGE[®]

TEMPORARY WORKFORCE HOUSING

OneLodge: the camp community concept developed by Cotton Logistics which allows guests to feel at home rather than in a temporary setting. This concept is achieved by offering the full range of amenities of an all-inclusive hotel while integrating comfort, security, socialization and personalized hospitality into each individual's experience, regardless of their length of stay.

THE COTTON EXPERIENCE

workforce housing benefits

1 Client sees an improvement of overall operational efficiency by reducing the lost man hours that result from extended time spent traveling to and from the job sites.

2 Workforce turnover is greatly reduced when management and crews in the field are provided with clean, efficient and comfortable housing.

3 A turnkey lodge allows workers to relax and recover after a long day in clean, comfortable rooms or recreation areas while their basic needs are met, resulting in greater workplace efficiency.

4 Use of modular facilities enables the flexibility to scale the lodge up or down or relocate part or all of a clients workforce as operational needs dictate.

5 Workforce lodges provide a safe and controlled community environment for crews.

At Cotton Logistics

we value the mission of your business and invest in technology that plays a key role in increasing your operational efficiency. We utilize state-of-the-art software that seamlessly integrates a suite of key hotel services, allowing us to globally manage bookings, track occupancy and provide detailed daily reports at each of our lodging facilities. The result is better efficiency that adds up to cost savings for our clients.
